

# POWERCHAIRS WORKSHOP

Gain more confidence, and expand your options with power! This workshop will provide you with information, practical experience and a conceptual framework to enable you to identify suitable power solutions for you client's variety of functional and environmental needs. It will provide the latest up-to-date information and hands-on experience on what is available in powerchairs. The new Quickie Pulse 6 from Sunrise and the just released rear-wheel drive chairs from Otto Bock will be here on display!

## PRESENTERS

**Amy Bjornson, BS, MPT, ATP.**

**Clinical Education Specialist Sunrise Medical Pty, Ltd**

Trained in the United States, Amy has over 11 years experience as a physical therapist working with the adult and pediatric neurologic populations, with specialties in the treatment of spinal cord injury, and evaluation and provision of assistive technology for clients with physical challenges. Amy is a dynamic speaker who has lectured extensively on seating and mobility, wound management and the physical therapy treatment of spinal cord injured clients.
