

**Lifehealthcare Hospital & Rehab
Education Program 2010**

**HOISTS &
SLINGS**

Gain more confidence, and expand your knowledge with hoist and sling selection. This workshop will provide you with information and practical experience to enable you to identify suitable hoist and sling solutions for you client's variety of functional and environmental needs.

A large number and variety of hoists and slings will be available for you to get "hands on" with the equipment so you walk out of the session confident in your ability to select and use a wide range of hoists and sling options.
