

TiLite ZRA

permobil

TiLite

- **No boundaries:** With full adjustability and a minimalist mono-tube frame, the ZRA dishes out style without boundaries. Add the ZRA's TiFit titanium frame, and you have the complete package. Strength, style, and the ability to set-up and configure your chair just for you.
- Rigid Mono-Tube frame chairs are the lightest and highest performing chairs because they are constructed from the fewest possible components and have the fewest moving parts.
- Precision Lock technology from Permobil is the most intuitive and easy-to-use adjustment system on the market.
- Precision Lock Back offers infinite possibilities for an exact fit each and every time. Critical adjustments can now be made while the user remains in the chair, saving time and reducing inconvenience.
- The Precision Lock Caster is a simplified and more accurate way to square your wheelchair in under a few minutes. It is the only caster system that can be adjusted by a single bolt with infinite adjustment positions.
- Distinguished by a clean, modern look, the mono-tube frame's 1.25" tubing gives the ZRA strength and durability. The frame shape affords excellent transportability and easy placement on a car seat.
- The Ergonomic Advantage provides an additional unique bend in the frame creating an ergonomic seat slope sitting you lower in the chair providing greater pelvic stability and improved posture through optimal contouring.
- Zero Play Camber Plugs give a much tighter feel to the chair like sport suspension in a car. CNC machined from billet aluminium to the highest tolerances, they remove any side to side movement from the rear wheels.
