

Aspire Low Friction Sling with Head Support - Parasilk

- Australian standards tested and registered with the TGA
- Parasilk material, with low friction properties, for maximum patient comfort during transfers and easy positioning
- Quality - manufactured in the UK using European materials, computer guided stitching and CNC fabric cutting
- Durable - loop webbing has a breaking strain in excess of one tonne and is designed so that it will not tangle or “cork-screw” during cleaning
- Serial Numbered - slings are embroidered with a unique serial number to maintain traceability and compliance at all times
- Service & Maintenance - service record labels ensure you can quickly and easily identify service history
- Easy Sling Identification - all slings are colour coded by size and have reinforced edging for longevity
- Easy Clean - machine washable up to 85°C temperature
- Parasilk leg strap lining for easy positioning
- For FIM score 1 or 2
