

JAY - Easy (Fluid & Visco)

JAY®

- The Jay Easy is an economical cushion with design characteristics from the Jay Xtreme and Jay Care cushions
- Developed for individuals who require moderate positioning and pressure relief, the Jay Easy can be used with either a seat sling or a solid base
- The pre-contoured foam base features significant lateral and medial thigh contours for clients who require greater positioning
- Optional Curved base (for use on a seat sling) or a Flat base (for use on a solid seat pan or in combination with a solid insert)
- The rear of the cushion base features a sacral notch similar to the one in the Jay Xtreme base. This notch prevents tissue breakdown around the coccyx caused by bouncing or posterior pelvic tilt
- The 'Jay Flow' Fluid Tripad provides pressure relief and shear reduction for users who are at moderate risk for skin breakdown
- All models include: 2 way stretch cover

✔ Contracted DVA product

✔ Contract approved
