

Paramotion Golf Powered Wheelchair

- The ParaMotion is particularly characterized by its offroad capability. It is primarily for use on the golf course but can be used in other outdoor activities.
- Includes seat suspension to avoid pressure points.
- Automatic “seat plate shift” installed to prevent pants and clothing pulling during use
- Powered by two 12V 96Ah lead-gel batteries
- Conquers obstacles with its profiled front tyres and dual rear wheels
- The rear wheels freely rotate around the steering axle, which results in better manoeuvrability, driving stability and puts less stress on the ground (i.e. - on the green of a golf course)
- Controlled via the world-renowned R-Net system allows personal programming to suit the needs of the user
- Colour display for entering the drive/standing function commands, battery gauge, speed level etc.
