

4H175E Electric Paediatric Cot

This cot is thoughtfully designed for paediatric care and caregiver convenience, offering features that improve safety and efficiency in hospital settings.

- **Easy-to-Operate Side Rails:** The side rails are easy to operate with one hand, enhancing patient safety and allowing quick adjustments, even when multitasking.
- **All-Around Access:** The open base design allows access from all sides, making patient care easier and reducing the risk of injury.
- **Height Customisation:** The electric height adjustment makes it easy to position the cot at the right level for both patient comfort and caregiver convenience.
- **Emergency-Ready Positioning:** The cot can quickly tilt up to +12 degrees for emergency situations. For stability, use the manual release lever to return the cot to a flat position instantly.
- **Integrated Battery Backup System:** The battery backup ensures that height and tilt adjustments can be made during power outages, providing consistent care in all situations. It's not intended for long-term cordless use.
