

- The Intergrated Weigh Scale is a useful option for weighing clients when they are unable to use a standard scale
- Reduces loss of lifting height compared with other hoist scales
- Use with general purpose (loop attachment) slings
- Non-absorbent polyurethane padding

Compliance

AS/NZS ISO 10535:2011

| Code | Display Name | Safe Working Load |
|-----------|------------------------|-------------------|
| LSS390675 | Integrated Weigh Scale | 200 kg |
