

UVMATIC Plus Portable Advanced Air Purification System

UVMATIC® Plus – the portable, industrial-strength air purifier from DDC Dolphin. Using UV and ozone technology, the UVMATIC® Plus provides a natural solution to the problem of drug and chemical-resistant micro-organisms. It destroys viruses such as influenza and coronavirus as well as E.coli, salmonella and similar bacteria.

- Portable and easy to transport throughout a healthcare facility
- Creates a clean environment by removing odour-causing airborne and surface bacteria
- More effective than chemical alternatives
- Eliminates viruses, bacteria, fungus and mould in the air and on surfaces
- Very cost effective and inexpensive to run
- Environmentally friendly, reducing the need for harsh chemical solutions to control bad odours
- A built-in timer can be programmed to disinfect either continuously or in 10-minute increments

Compliance

ISO 15883/AS 4187:2019
