

Malvestio VELA Hydraulic Stretcher

A robust and versatile hydraulic stretcher designed for clinical environments requiring safe patient handling, smooth positioning, and high configurability. With dual-column height adjustment, multiple platform options, and easy-to-use controls, it supports efficient workflow and enhanced patient comfort.

- **Hydraulic Height Adjustment:** Two hydraulic telescopic columns raise and lower the mattress platform using foot pedals located on both long sides.
- **Trendelenburg & Reverse Trendelenburg:** Foot pedals allow quick and controlled positioning for emergency or clinical needs.
- **Multi-Section Mattress Platform:** Available in 3- or 4-section configurations made from durable laminate (HPL), offering a large radiotransparent surface from head to knees.
- **Backrest Adjustment:** Gas-spring backrest with lever positioning located at the head end for smooth, precise control.
- **Manually Adjustable Sections:** Fixed central section; knee-break and legrest adjustments depending on the chosen platform configuration.
- **Folding Side Rails:** Rails lower fully beneath the mattress platform; each rail includes two accessory hooks and an integrated horizontality indicator along the handrail.
- **Accessory-Friendly Design:** Corner housings for bumpers or accessory mountings; folding push handles at the head end.
- **Heavy-Duty Base Frame:** Four 200 mm wheels with brake pedals on both sides, allowing full lock, free movement, or directional mode.
- **Built-in Storage Features:** Base frame includes a shaped enclosure for gas cylinders of various sizes and housings for the I.V. pole on both sides when not in use.

Warranty Information

- 2 Years
