

TiLite TR

permobil

TiLite

- **The best from every angle:** The sweeping curves of the titanium dual-tube frame are the perfect fusion of striking design and driven performance. Lighter, more efficient, and more elegant than any chair anywhere. As our flagship rigid chair, the TR is simply the best of the best.
- Rigid Dual-Tube frame chairs are the lightest and highest performing chairs because they are constructed from the fewest possible components and have the fewest moving parts.
- Titanium provides a smoother ride, won't break, and has the highest strength-to-weight ratio of any metal on Earth.
- Ease of Transport and Energy Saving: no wasted energy with a swept-in dual-tube frame and fewer strokes throughout the day.
- The Ergonomic Advantage provides an additional unique bend in the frame creating an ergonomic seat slope sitting you lower in the chair providing greater pelvic stability and improved posture through optimal contouring.
- Zero Play Camber Plugs give a much tighter feel to the chair like sport suspension in a car. CNC machined from billet aluminium to the highest tolerances, they remove any side to side movement from the rear wheels.
