

OPPO 2320 KNEE STABILISER

- Bilateral spiral stays prevent knee sprains by reinforcing support and stability of joint.
- Multi-function silicone pad helps maintain proper patella position and offers moderate compression around patella to reduce swelling and irritation.
- Elasticated zones offer freedom of movement with ideal coverage.
- 3D energizing pattern stimulates sensory inputs to facilitate joint stabilization during movement.
- Comfortable edge design holds firm and provides a snug fit without being too tight.
- Seamless design enhances all-around comfort and compliance. Application:
 - Patellofemoral Pain Syndrome
 - Muscle Strain
 - Knee Sprain

✔ Contracted DVA product
