

Grab Rail - Modular

- The modular range offers a series of set lengths of 32 mm tubing and a selection of related componentry, allowing you to create your own grab rails, either in the workshop or on site
- This range has been embraced by all sections of the health care industry and is used extensively within the home modification market. It has proven its value over many years and is highly recommended by both builders & occupational therapists.

- ✓ Contracted DVA product
- ✓ Contract approved
