

## Vib-Ra-Bell wireless door bell & vibrating shaker receiver

### Vib-Ra-Bell | Wireless Door Bell Transmitter & Vibrating Shaker Receiver Bundle —

Designed for the blind, hearing impaired, and senior care. Ideal for noisy environments where a traditional doorbell may not be heard.

When paired, the Shaker Receiver will **flash, vibrate, and emit an alarm sound (25–110 dB)** upon receiving a signal from the doorbell. This ensures you never miss a visitor, even if you are deaf, hard of hearing, or in another room.

This bundle includes:

- **Vib-Ra-Bell Wireless Door Bell (TT-VB1)**
- **Vib-Ra-Bell Shaker Receiver (TT-VB2)**
- The shaker receiver is pre-paired with the doorbell for easy setup.
- 52 ringtones to choose from
- 4-step adjustable volume control (25–110 dB)
- 250–300 m working range
- Approved with CE, FCC, and RoHS certification
- Easy installation – no electrical wiring required (operates via radio frequency)
- Battery-operated and portable
- Wearable on waist belt (belt clip supplied)
- Includes 2 × AAA and 1 × LR23 batteries
- Built-in vibrating motor with LED indicator
- Learning code allows pairing with multiple transmitters
- Music memory function for different sensors
- Power on/off button
-
