

Darco All Purpose Post Operative Boots

- Relaxed rocker sole reduces plantar pressure under forefoot and heel by over 25.
- Square-toe design acts as a bumper to protect the toes when k-wires are present and provides better Left/Right fit.
- Ankle strap seats foot firmly in shoe to reduce heel slippage and eliminate friction.
- Removable Forefoot Closure provides security while eliminating buckle pressure.
- Removable Insole features twice the padding of standard insoles and can be modified as needed. The insole can be totally removed to accommodate DARCOs innovative Peg Assist (PQ Series) customizable off-loading insole.

✔ Contracted DVA product
