

Aspire Sierra Scooter

The Aspire Sierra Scooter delivers smooth, stable, and reliable performance for everyday adventures. Designed for outdoor use over varied terrain, it combines a classic style with quiet operation, excellent stability, and user-friendly controls to support confidence and independence.

- **Extended Daily Travel:** High-capacity lead-acid batteries provide up to 40 km of range per charge, reducing the need for frequent recharging.
- **Stable and Secure on Every Trip:** 4-wheel configuration with front and rear independent suspension delivers a smooth, steady ride over a variety of outdoor surfaces.
- **Simple and Intuitive Controls:** Straightforward analogue interface is easy for both new and experienced users to operate.
- **Designed for Easy Manoeuvring:** A tight 1565 mm turning circle makes navigating narrow paths, shop aisles, and small community spaces easy and efficient.
- **Plush, Supportive Seating:** Features a deeply padded, adjustable captain's seat and flexible tiller. Seat slides, swivels, and reclines for personalised comfort and positioning.
- **Smart Safety:** Emergency stop button and automatic speed reduction while turning help keep users safe in unexpected situations.
- **Powerful Performance:** Equipped with a 700 W nominal / 1400 W peak motor and electro-mechanical brake system for dependable performance across varied terrain.
- **Durable Tyres:** Large 290 mm pneumatic tyres provide excellent traction and shock absorption outdoors.
- **Convenient Charging:** Includes a 24 V 5 A charger for efficient recharging.
- **Strong Load Capacity:** Supports a Safe Working Load (SWL) of 136 kg.
- **Two Stylish Colours:** Available in Arctic Mist and Desert Sand.
