

Cura - iBeam Wireless Motion Sensor

- Detects movement with narrow detection zone and reduces false alarms
- Simple operation and maintenance
- Can be installed adjacent to a bed or across a doorway
- Mounting bracket, screws and double-sided tape included
- On / Off switch to conserve battery life when not in use
- Low battery indicator, battery life: 6 months with normal usage
- Detection range: 3-5m*
- Wireless range: 30m*
- Power supply: 6-12V DC, 300mA &/or 3 x AA alkaline batteries
- Works with other cura1 cordless devices

*Actual transmission and detection distances may vary and be dependent on specific environmental conditions.
