

Aspire ALTITUDE Single Action Recliner

The Aspire Altitude Recliner is an electric recliner chair designed to provide comfortable seating for long periods of time. It is a truly mobile and flexible seating solution, with 75 mm castors facilitating smooth user transport plus a lithium-ion battery that can power the recliner all day when not within reach of power points.

- Use all day without plugging in the power with its inbuilt battery (requires recharging)
- Easy relocation of the chair between residents or facility locations with smooth-rolling 75 mm Tente castors (rear locking)
- Reduce shear and promote optimal skin microclimate with a multi-stretch vapour-permeable seating surface designed for users at risk of pressure injury
- Medical grade vinyl on the outer chair surface for improved longevity and infection control
- Removable armrests facilitate safe lateral transfers
- Enhanced comfort and immersive qualities with a three-tiered backrest cushion
- Optional oncology armrests (CHP227715) provide wide forearm support to enhance patient comfort and assist with effective administration of treatment such as blood transfusions
- Optional armrest table (CHP227720) allows for placement of personal items or medical instruments during treatment
- Some suitable applications include aged care facilities, rehabilitation facilities, hospitals, blood and treatment clinics, care in the home, and other independent in-home use

Warranty Information

- Components: 2 Years*
