

Airgo Comfort Plus Offset Cane with MiniQuad Ultra-stable tip

- The Airgo Comfort-Plus with Comfort-grip handle and MiniQuad cane tip offers an intermediary cane tip that provides the stability benefits of a quad base in a size comparable to a walking stick.
- MiniQuad tip is 54% lighter and 80% more compact than a large base quad. This ultra-stable cane tip even keeps your cane upright!
- The ergonomic handle with Cushion-top conforms to your hand and helps reduce impact shock transfer.
- Cane handle has rubber surrounds for leaning on walls and tables.
- 20% More Adjustable: 12 individual height settings offer an unparalleled range of adjustment to fit more people comfortably.
- Mini quad tip: 54% lighter & 80% more compact than a large base quad cane.
- Unique design which recenters itself for superior stability.
- MiniQuad tip allows cane to stand independently.
