

TiLite ZR

permobil

TiLite

- **Head turning style:** With the ZR's minimalist mono-tube frame, less truly is more. The clean aesthetic of the ZR turns heads while the titanium frame makes sure you have the strength and vibration-dampening ride to go with your beauty. Style and strength to take on whatever life throws at you.
- Rigid Mono-Tube frame chairs are the lightest and highest performing chairs because they are constructed from the fewest possible components and have the fewest moving parts.
- Titanium provides a smoother ride, won't break, and has the highest strength-to-weight ratio of any metal on Earth.
- Distinguished by a clean, modern look, the mono-tube frame's 1.25" tubing gives the ZR strength and durability. The frame shape affords excellent transportability and easy placement on a car seat.
- The Ergonomic Advantage provides an additional unique bend in the frame creating an ergonomic seat slope sitting you lower in the chair providing greater pelvic stability and improved posture through optimal contouring.
- Zero Play Camber Plugs give a much tighter feel to the chair like sport suspension in a car. CNC machined from billet aluminium to the highest tolerances, they remove any side to side movement from the rear wheels.
