

Glove Applicator

- Accessory for donning and doffing medical compression garments
- Specially designed to provide an optimal grip on the fabric and help medical compression stockings to slide over the foot and up the leg
- Preserves the original medical compression by avoiding pulling hard at the top of your stockings and ensuring a longer life of the garment
- Protects the fabric of stockings from being damaged by nails or jewellery
- Contains Latex

- ✓ Contracted DVA product
- ✓ Contract approved
