

TiLite Pilot

permobil

- **Ready For Take Off:** Watch your kid soar in the ultra-lightweight TiLite Pilot. Finally, a chair that moves and grows with your child
- The TiLite Pilot has built-in forward growth adjustment to grow with your child and maintain optimal rear wheel access. This gives kids the most efficient propulsion possible without needing to adjust or relearn their push mechanics
- The clean frame design features a seat pan and side panels that provide easy access to the adjustment bolts, making changes simple and intuitive. Unlike on other chairs, all of these adjustments can be done without compromising access to the rear wheels
- The ultra-lightweight design and carbon fibre frame panels make it 50% lighter and a breeze for kids to navigate all the adventures of their great big world. Quick release wheels and transit tie downs mean that bringing the Pilot everywhere is also simple for mum and dad
