

Speciality Toilet Rails

- This range of Speciality Toilet Rails have a number of various configurations of rail length and mountings to suit the requirements of each toilet configuration
- These high quality stainless steel rails are manufactured from 32 mm diameter 1.2 mm gauge heavy grade T304 polish tube
- Flanges are five holed (75 mm dia x 2.5 mm thick) and are fully welded on the underside of the flange, forming an extremely strong, clean and hygienic product
- Standard wall clearance is 60 mm ensuring compliance with AS1428.1:2001
- All rails are manufactured with an electro polished finish as standard
- Alternatively you can request a satin or epoxy coated finish depending on your decor requirements - specify at time of order
