

Softform Premier Active Mattress

- The Softform Premier Active features an alternating air insert beneath the castellated foam insert pad
- The mattress retains its properties as a high risk static mattress, but should clinical judgement determine that the patient requires stepping up to a dynamic surface, then a discreet pump can be fitted to the air insert, transforming the mattress into an alternating surface delivering additional levels of pressure relief
- There is no requirement to move the patient, thereby minimising any discomfort
- The pump will assess individual patients' weights, and adjust levels of inflation accordingly
- The air cells alternate on a ten minute cycle beneath the foam insert, delivering a very low impact at the point of change, thereby delivering high levels of comfort in addition to improved pressure reduction
- Two-way stretch PU waterproof cover
- High frequency welded seams
- Full length flap conceals the zip
- Toughened PU coated base
- Double coated PU sides

Warranty Information

- Cover 4 Years
- Foam 8 Years
- Pump 2 Years
