

Jenx Nursery Table

A sturdy table with a large, clear surface area that is big enough for a child to play or work at most activities with ease and provides endless play opportunities.

- The plastic activity surface can be used flat or angled as an easel and includes a height adjustable frame to meet the requirements of every child
- It can also be used to great effect with the Corner Seat, with a short strap attaching the two items in use to prevent a child tipping the table over
- Surface area is easy to wipe clean and the cut out design to one side allows the child to get close to their table-top activities
- Edging around the remainder of the surface also reduces the risk of objects sliding off the table
- The Nursery Table can be easily adjusted for height. Adjustment is continuous rather than incremental, so every child can have their table at precisely the correct height for them
- This feature allows the Nursery Table to be used by children using a Corner Seat or other floor seats, or by children who are able to sit unaided
- The cut out on the table gives children the opportunity to be surrounded by the work surface, which means that even children who find it difficult to bring their hands forward will have their arms supported
- Table Angle (From Horizontal) 40° - 40°
- Distance Between Table Legs: 570 mm

Code	Display Name	Total Length	Total Width	Total Height	Safe Working Load
