

Jay Cushion Protector

JAY®

- The JAY® Protector is a small, portable wheelchair seating accessory that allows clients to experience the benefits of JAY on a limited basis when sitting or moving outside of their wheelchair
- The Protector wheelchair seating option features a foam base that absorbs impact and provides a stable sitting surface
- A layer of JAY Flow fluid conforms to each individual's shape and adjusts to sitting positions to help reduce pressure and shear
- Its waterproof coating protects the foam base from moisture build-up
- A moisture-resistant cover assists with incontinence management by shielding the Protector's base
