

Aspire PosturePro Chair Range Accessories

- **Footrest Padding - CHP231650** - Additional padding improves comfort and pressure redistribution for the bony prominences of the foot and heel and raises the footplate height for smaller users.
- **Concave Pillow - CHP231660** - Provides lateral head and neck support in midline sitting where low tone is a consideration or for improved comfort when sleeping.
- **Legrest Wedge - CHP231670** - Creates an elevated surface to improve lower limb comfort and help to reduce swelling.
- **Horse Shoe Pillow - CHP231680** - Gentle support pillow for the head and neck to encourage midline sitting where low tone is a consideration or for improved comfort when sleeping.
- **Dual Castor - Total Locking - GSP511900** - The lower rolling resistance of dual castors wheels makes chair mobility easier due to the lower push/pull forces required from care staff. Total locking for safety.
- **Dual Castor - Directional locking - GSP511905** - The lower rolling resistance of dual castors wheels makes chair mobility easier due to the lower push/pull forces required from care staff. Directional locking assists in maintaining straight line control during transportation.
