

Roll-A-Ramp Ramps

Roll-A-Ramp® is the most versatile ramp and an excellent option for anyone looking for high-quality access ramps. This ramp is lightweight, durable and portable, making it suitable for both personal and commercial use.

- **Easy to use and portable:** Modular link design with quick release pins, for easy adaptability to the perfect length
- **Superior weight capacity:** Made from lightweight Aircraft Aluminum, supporting weights up-to 450 kgs
- **Available in various widths:** Popular widths: 30" for most standard applications 36" suits public applications or larger chairs
- Ideal for use with mini-vans, simply roll up and stow away
- Create entry ramps to homes, schools, or offices
- Usable as a bi-fold or a permanently attached fold-up ramp
- Enter/exit vehicles, then roll it up & put it away
- A portable ramp that combines lightweight with outstanding strength
- Lightweight, aluminium construction with built-in safety rails
- Carrying strap & tools included
- With a flexible linking structure, adapting the ramp for each situation is a breeze
- Removing and adding panels to adjust the length is achieved via simple pin locks allowing you to create everything from single steps to airline doors
