

Dreamline BAC System

- The BAC (Backrest Advanced Contour) System can be retro fitted to any Dreamline SUPPORT or S3 backrest as an upgrade enabling accurate asymmetrical contouring for high needs users
- Consists of multiple pads which can be layered in any position or orientation on the backrest to match the user
- 4-way stretch cover provides limitless build possibilities
- Positioning pads are small for better accuracy, may be rotated to any angle and positioned anywhere on the rigid inner shell
- 10 extra BAC positioning pads are supplied with each backrest
