

Dementia Care Glowing Sheet

The Glowing Vinyl Sheet is made from long afterglow photoluminescent pigment and plastic raw material.

It can be cut into all of shapes and patterns and applied to clean and dry surfaces.

Visible for 8-10 hours after 20 minutes of exposure to an adequate light source.

Simply cut out the required shapes from the vinyl, peel off the back strip and stick in place.

Indoor durability is in excess of 5 years.

Outdoor adhesive durability is good but will reduce in strong sunlight and humidity as there are no UV stabilisers in the film as they inhibit charge up.

Non-toxic and non-radioactive.
