

Activ+ Mattress Comfort Range

Finding the Right Fit

A simple guide to choosing your Activ+

Every Activ+ is built on the same Australian-made, 170mm foam platform, designed to move with your adjustable bed. That leaves just two choices: your feel, and your cover. Here's how the design works for you.

Comfort that adapts to you

50mm of responsive memory foam contours to your shape, then responds as you move. This offers comfort without that stuck-in-the-mattress feeling.

Made to move with your bed

The Activ+ flexes with every position of your adjustable bed, so support stays consistent whether you're sleeping, reading or raising your legs.

Staying cool at night

Breathable, open-cell foam releases excess heat. If you sleep warm, fit the Cooling Cover Top for a cool, dry sleeping climate.

Getting in and out with confidence

Reinforced sidewalls give you a firm, stable edge to sit on when getting in or out of bed.

Extra protection where it's needed

The Pressure Care Cover is breathable and waterproof, managing moisture and protecting the mattress where continence or skin care is a consideration.

** Your therapist can advise what's right for you.

A fresh, hygienic surface

Cover tops are woven with silver-infused, anti-bacterial fibres to help keep your sleep surface fresh.

Australian Made

Built with high-resilience, medical-grade foam that is backed by a leading 7-year foam warranty.*

Choosing your feel

	The Feel	Supports Up To
Soft	A plusher, cradling feel that gently contours around you	175 kg
Medium	The balanced feel most people love — support and comfort in equal measure	200 kg
Firm	An extra-stable, supportive feel that makes moving and transfers easier	250 kg
