ABOUT AIDACARE

Aidacare is one of Australia's leading and most diverse healthcare equipment and service providers.

We offer products and services across the acute care, residential aged care, home and community care, and rehabilitation sectors. Our national service teams provide maintenance and asset management for government and private health care facilities, as well as in-home training, service and maintenance.

Aidacare offers a national retail, wholesale and distribution network providing sales, hire and expert service.

NATIONAL COVERAGE

Located across all states of Australia Aidacare have showrooms in capital city and regional locations. We also have network partners covering other areas, so our products are easily accessible and our support is truly local.

FIND A STORE

Our expert, friendly staff are ready to assist you in one of our showrooms. To find your nearest showroom, go to **aidacare.com.au** or call **1300 133 120**.

WHAT YOU CAN EXPECT FROM AN AIDACARE SHOWROOM

EXPANSIVE PRODUCT RANGE

Find a huge range of industry-leading healthcare equipment approved by our team of clinical advisors (occupational therapists) under one roof.

EXPERT ADVICE & RECOMMENDATIONS

Our showroom staff know all there is to know about our products. If you need advice about products or funding options, our expert staff are onsite to assist.

MOBILITY SCOOTER TESTING AREA

We'll be happy to get you set up with a mobility scooter of your choice for a test drive. It's the best way to find the model that suits you and your lifestyle.

PRIVATE CONSULTATION ZONES

Private consultation zones are used for equipment trials, case plan review sessions or can be used for your next allied health team meeting.

DEDICATED EQUIPMENT DISPLAYS

You can easily navigate our showrooms and find what you are looking for with dedicated displays for all equipment.

WELCOMING & RELAXING

Our friendly showroom team members are on hand to guide you through the equipment selection process.

EQUIPMENT HIRE

Our customers have access to the largest, modern fleet of rental home care, rehabilitation and physiotherapy equipment in Australia.

Our rental equipment pool is maintained through our ISO 9001 quality standard processes, with all equipment undertaking rigorous detail cleaning and maintenance prior to being delivered.

Visit our website for terms and conditions or scan QR code for pricing.

MAINTENANCE & REPAIR

Aidacare employs a specialised team of highly trained service technicians.

Your equipment will be serviced either in one of our our high tech workshops or in the comfort of your own home through our onroad technicians.

National coverage ensures your equipment can be maintained Australia wide.

Aidacare is an authorised warranty repair agents for all leading brands.

ABOUT LIFEComfort® MATTRESSES

LifeComfort Mattresses have set the benchmark in sleep surface quality and performance in Australia for more than a decade.

All LifeComfort Mattresses are fitted with superior, hospital- grade polyurethane coated covers designed to withstand the rigours of usage and cleaning requirements in home care, aged care, and up to acute care environments.

Multiple foam layering combinations provide maximum comfort, support and pressure redistribution across a wide range of user shapes and sizes.

Standard Inclusions

- Durable hospital grade foam that is treated for antimicrobial and antibacterial properties
- Breathable, 4-way stretch waterproof cover to reduce shear, friction, and maintain skin microclimate, easily removed for effective cleaning
- Medical grade waterfall covers are fully welded over the zipper to maximise infection control
- Immersive surface contours and cradles around the user for personalised pressure relief and comfort
- Suitable for bleach concentrations up to 10,000ppm
- Integrated handles for safe manual handling
- Asset management ready with batch and serial numbers printed on all covers

L Low Risk **M** Medium Risk **H** High Risk **V** Very High Risk

ASPIRE COMFIMOTION MATTRESSES

ONE WAY SLIDE – NON SLIP

TSE673050

Assists in the correct positioning in the back of a chair, prevents user slipping forward
Reduces the risk of strain or injury
Helps maintain posture
Machine washable

SWIVEL CUSHION

TSE673056

Swivel padded mechanism provides smooth rotation for transfers
Reduces strain on user and carer backs
Padded for comfort

TRANSFER BOARD CURVED

TSE672920

Facilitates transfers
Two slip resistant pads
Arc shape enables a variety of positioning options
SWL - 152kg

SLIDE SHEET

TSE673070 Small
TSE673080 Large

Nylon material designed to assist in sliding and transferring patients
Low friction
Folded, placed under the patient, top sheet slides on lower sheet

SALLYBOARDS

Lightweight board
Three handles on each side with four grip strips on underside
Curved board
SWL – 130kg when gap is 20 – 30cm. 180kg when gap less than 20cm

Code	Description	SWL
TSE672195	Medium	300kg
TSE672196	Large	300kg
TSE672191	Curved	130 / 180kg

CEILING HOISTS

Aidacare is an experienced supplier and installer of ceiling hoists. Our systems are world-class, accompanied by accredited installation guidelines which allow us to work with a range of installers. We are an ISO 9001 accredited company and consistently provide high-quality outcomes for Australia's largest aged care and hospital providers.

A wide range of motor and track options are available to suit client specifications.

Contact us for more information.

ASPIRE TRANSPORT RAMP

RAM656800 1500 x 850mm

Lightweight aluminium
Anti-slip in all weather
Raised tapered side walls
High visibility orange
Foldable and portable
SWL - 400kg

SILVER STAR TRANSPORT RAMPS

RAM656370 750 x 610mm
RAM656380 750 x 910mm
RAM656390 750 x 1220mm
RAM656400 750 x 1520mm
RAM656410 750 x 1830mm

Lightweight portable aluminium ramps that folds easily in half for convenient storage & transportation
SWL - 272kg

RUBBER THRESHOLD RAMPS

RAM656211 200 x 1010mm Small
RAM656212 400 x 1140mm Large

Assists mobility equipment to navigate steps and bumps
Lightweight, recycled rubber, ideal for doorways
SWL - 300kg

BARIATRIC EQUIPMENT

Aidacare's bariatric equipment range includes wider seat widths, increased weight capacities, and reinforced materials to meet the specific needs of the bariatric users.

The classification of overweight and obese adults over 18 years, according to BMI (body mass index) is shown in the table below. To calculate BMI, divide a person's weight by their height squared ($BMI = \text{weight (kg)} \div \text{height (m)} \times \text{height (m)}$).

Classification	Underweight	Normal Range	Overweight	Obese
BMI	Below 18.5	18.5 - 24.9	25.0 - 29.9	> 30

People in the bariatric category have one or more of the following characteristics:

Weight Capacity > 125kg | **Body Mass Index (BMI*) > 30** | **Seat Width > 20" (50cm)**

There are many variations to these characteristics but recognising the need to provide suitable equipment for bariatric clients is paramount to the safety of clients and carers. Bariatric equipment is designed to assist in: pressure management; heat management; and effective weight distribution on the seating surface.

Bariatric equipment is identified in this catalogue by this symbol.

24 HOUR POSITIONING

Pressure areas can rapidly develop and require regular changes of position to reduce the risk of developing a pressure injury. Long periods in the same position and the effects of gravity on the body can lead to shortening of tendons and fixed changes to posture over time. This in turn, can impact on function, independence, and the ability to be comfortably seated to allow for activity or social participation.

For further information or to organise assistive technology (equipment) for 24-hour positioning, contact Aidacare's Complex Rehab team on 1300 133 120.

BACK CARE

Back pain is a common problem reported by 1 in 6 Australians and experienced in some degree by most people in their life. It can be acute pain following an injury or chronic pain related to injury or a health condition such as arthritis, osteoporosis or spinal stenosis (narrowing of the spaces in your spine).

Back pain can impact on your activities of daily living by making it difficult to sit or stand from low heights, walk long distances, bend, reach, carry or be comfortable in your bed or chair.

Examples of assistive equipment that may help a person with back pain are shown below.

CARER'S SUPPORT

Injuries to carer's in healthcare, aged care, rehabilitation and disability services due to the handling of people are a major risk. Poor manual handling practices can cause injuries to the body that affect the musculoskeletal and/or nervous systems.

However, these injuries are preventable. Please see below for assistive equipment that may help a carer to reduce or eliminate the risk of injury from manual handling of patients.

For the full range of products, please contact our experienced and friendly staff at Aidacare.

ENERGY CONSERVATION

Learning to conserve your energy is about finding a good balance between work, rest, and leisure in order to decrease the energy demand on your body. This can be beneficial in reducing effort, fatigue, joint stress, and pain as well as reducing shortness of breath and the strain on your heart.

Energy conservation strategies include:

- Planning
- Pacing
- Prioritising
- Positioning

Examples of assistive equipment that may help a person conserve energy are shown below.

HIP & KNEE CARE

Hip and knee joint replacements are helping people live active and pain-free lives. It is important to consult with your doctor, physiotherapist, occupational therapist or other health professional and follow their recommendations.

To make the process easier, you may like to purchase daily living aids, seating supports, pillows and mobility aids prior to surgery so that all the equipment is available and ready for you upon discharge from hospital.

For guidance on product selection and sizes, please call the Aidacare team on 1300 133 120.

PRESSURE CARE

Pressure injuries are a major healthcare concern and can develop in anyone with reduced mobility. They commonly occur in areas where there is prolonged pressure on bony prominences such as the elbow, heel, shoulder, back of head, lower back, and the buttock area.

If left untreated, pressure injuries can lead to serious complications. Therefore, prevention is key to managing areas at risk of pressure injury.

Prevention is key and can include regular changes to position, good hygiene and skin care, and a healthy diet.

NEURO CONDITIONS

A neurological condition refers to any disorder of the nervous system. There are over 600 known conditions that affect the human nervous system and as many personal impacts as there are people who have a neurological condition. Everyone's experience and needs are different depending on how severe their condition is, and whether their symptoms fluctuate, are stable or changing. How it can impact the person can also depend on whether the places they live or visit are accessible and also what help or equipment they need and have available.

Aidacare consultants can work with you, your medical and therapy teams to help you find assistive technology to maintain or improve your abilities, independence, and well-being.

DEMENTIA CARE

The risk of dementia increases with age. It affects thinking, behaviour, and the ability to perform everyday tasks. Some early signs of dementia include progressive and frequent memory loss, confusion, apathy, and withdrawal. Safety within the home is an important factor to consider when caring for a person with dementia. The home environment should help them know where they are and to find where they want to go. This can be done with large orientation signs and using colour contrast to highlight important items or areas in the home.

Ask our friendly staff to help you select the best products for your situation by calling 1300 133 120.

FALLS PREVENTION

Falls are more prominent with the elderly and can result in injuries such as hip and wrist fractures, dislocations, head injuries, and can sometimes prove fatal. Falls occur for a variety of reasons including medical history, cognitive impairment, gait disorders, and environmental hazards, to name a few.

It is important to implement preventative measures to decrease the chances of a fall particularly for those who are identified to be at high risk.

Such measures can include installing grab rails and safety equipment in wet areas, using mobility aids and hip protectors, and removing clutter and hazardous items around the home.

LIVING WITH ARTHRITIS

Living with arthritis can be uncomfortable and painful. You may experience stiffness, inflammation, and damage to the cartilage in your joints resulting in weakness, instability, reduced range of movement, and joint deformities.

Arthritis can heavily impact daily function including the most basic of tasks such as preparing meals, walking around the home, driving, tying laces, and buttoning shirts.

Fortunately, there is a wide range of equipment available to assist with daily tasks to maintain an independent lifestyle whilst living with arthritis.

TRAVEL ASSISTIVE TECHNOLOGY

If you have a disability or injury and require assistive technology (equipment), it can be daunting to consider travelling. But don't let that stop you from getting out and about or enjoying holidaying with family or friends. There are now many items available that fold or dismantle to fit into tight spaces, making travelling much easier. Alternatively, if you are holidaying within Australia, you can contact the nearest Aidacare showroom to your destination to organise the hire of equipment for the duration of your stay.
