**BATHROOM & TOILET**

Aspire Shower Chair
- Contoured plastic seat with drainage holes and windows
- Provides postural support, and reduces skin adhesion
- Height adjustable legs
- SWL: 200kg
  - REGULAR - 470mm
  - BTS118000 - Treated Steel
  - BTS118005 - Aluminium
  - WIDE - 525mm
  - BTS119010 - Treated Steel
  - BTS119015 - Aluminium

Aspire MAXI Shower Chair
- Super heavy duty width adjustable frame to 775mm
- Reinforced aluminium frame accommodates bariatric users
- Soft padded seat, back and arms provide postural support
- Height adjustable legs
- SWL: 310kg
  - BTS118020

Aspire Over Toilet Aid
- Seat Width: 460-525mm
- Raised armrests – Assist the user transferring on and off
- Height adjustable legs
- SWL: 175kg
  - REGULAR - 460mm
  - BTT145000 - Treated Steel
  - BTT145005 - Aluminium
  - WIDE - 525mm
  - BTT145010 - Treated Steel
  - BTT145015 - Aluminium

Aspire MAXI Over Toilet Aid
- Super heavy duty width adjustable frame to 775mm
- Soft padded flip up seat for easy cleaning
- Reinforced aluminium frame accommodates bariatric users
- Height adjustable legs
- SWL: 310kg
  - BTT145020

Aspire Toilet Surround
- Height adjustable frame – Easy push button height adjustment
- The Toilet Surround frame provides a safe and secure grip point for lowering and raising off the toilet
- SWL: 175kg
  - BTT155100

Aspire Seat Raisers
- Available with or without lid
- Three heights available
- SWL: 200kg
  - NO LID
    - BTT148800 - 50mm
    - BTT150200 - 100mm
    - BTT150300 - 150mm
  - WITH LID
    - BTT149900 - 50mm
    - BTT150100 - 100mm
    - BTT150400 - 150mm

Bath/Shower Board - Savannah Slatted Seat
- Adjustable bath board
- Curved plastic securing brackets
- Slip resistant grips provide additional slip resistance
  - BTS111900 - Regular

ABOUT LIFECOMFORT® MATTRESSES

LIFECOMFORT® Mattresses have set the benchmark in sleep surface quality and performance in Australia for more than a decade.

All LIFECOMFORT® Mattresses are fitted with superior, hospital-grade polyurethane coated covers designed to withstand the rigors of usage and cleaning requirements in Home Care, Aged Care and up to Acute Care environments.

Multiple foam layering combinations provide maximum comfort, support and pressure redistribution across a wide range of user shapes and sizes.

STANDARD INCLUSIONS

- Durable Hospital Grade Foam that is treated for antimicrobial and antibacterial properties.
- Breathable, 4-Way Stretch Waterproof Cover to reduce shear, friction and maintain skin microclimate.
- Medical Grade Waterfall Covers are fully-welded over the zipper to maximise infection control.
- Asset Management Ready with unique batch and serial numbers printed on all covers.

**PRESSURE CARE RISK LEVELS**

LIFECOMFORT® Mattresses cater to a broad spectrum of Pressure Care risk ratings from Low to High, as illustrated below:

<table>
<thead>
<tr>
<th>RATING</th>
<th>LOW - MEDIUM</th>
<th>MEDIUM</th>
<th>MEDIUM - HIGH</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATTRESS</td>
<td>Standard</td>
<td>Deluxe</td>

</tr>
<tr>
<td></td>
<td>Press Care Reducing</td>
<td>Premier Care</td>
<td>Bariatric</td>
</tr>
</tbody>
</table>

*Pressure care rating references provide general guidelines only, patient specific assessment and correct nursing care are essential for maximising pressure care outcomes.

---

**Lifecomfort Standard Foam Mattress**

- Two layer support design
- Two way waterproof stretch cover
- SWL: 120kg

- BEM046410 - Single
- BEM046425 - Regular/Small
- BEM046460 - King Single

**Convoluted Foam Overlay**

- Fits under bed sheet to re-distribute pressure points
- Improves air flow to maintain constant body temperature

- PTM636260 - Single
- PTM636270 - Double
- PTM636280 - Queen

**Lifecomfort Premier Care Foam Mattress**

- Pressure care mattress suitable for high risk patients
- Four layer design mattress with height of 150mm designed for larger users
- SWL: 180kg

- BEM046725
- BEM046730

**Lifecomfort Bariatric Foam Mattress**

- Four layer design mattress with height of 200mm designed for larger users with a maximum weight capacity of 300kg
- SWL: 300kg

- BEM046700

  PTM639510 - King Single
  PTM639520 - Super King Single

**Aspire Active Air 8 Mattress Replacement**
- 8" Mattress replacement
- Simple and easy to operate digital pump
- Welded seams and zip protection, breathable multi-stretch cover and patented cable lock protection
- SWL: 200kg
- BEM046610 - Single
  BEM046625 - Regular/Small
  BEM046660 - King Single
  BEM046675 - Double
  BEM046680 - Queen

**Hybrid Comfort Mattress**
- Acute mattress system offering foam-in-cell technology enabling flexible operation as a high comfort foam static support surface or a powered-up alternating pressure support surface.
- Immersive Visco-elastic Memory Foam Surface: Top layer is now twice as thick to offer significant improvement in user comfort
- Tapered heel zone redistributes pressure to lower leg, away from the vulnerable heel region. The castellated surface collapses in a wave-like movement reducing shear
- SWL: 230kg
- PTM638005 - Single
  PTM638006 - King Single
  PTM638030 - Digital Pump

**Aspire Active Air 8 Mattress Overlay**
- 4" Overlay + Memory Foam
- Simple and easy to operate semi-digital pump
- Welded seams and zip protection, breathable multi-stretch cover and patented cable lock protection
- SWL: 135kg
- PTM639100 - Single
  PTM639000 - Rapid Inflation Turbo Pump

- Three wheel walker ideal for use in combined spaces
- Folds away for easy storage or transportation
- Height adjustable handles to suit user requirements
- Handbrakes are lockable for stability while standing

**Aspire Knee Walker**
- For lower leg & ankle injuries
- Compact & easy to fold
- Multi-height adjustable platform
- Adjustable handle bar height
- Dual locking brakes

**Aspire Meal Tray Walker**
- Sturdy & robust walking aid for use within the home
- Lockable hand brakes provide additional safety when rising from a seated position
- Clip on plastic trays with outer lip edge to capture spillage and prevent items from slipping off

**Aspire Meal Trolley**
- Sturdy & robust, providing a means of transporting meals or other items from one room to another
- 3" castors with two locking to hold the trolley in place
- Clip on plastic trays with outer lip edge to capture spillage and prevent items from slipping off

**Side Folding Walking Frame - Aluminium**
- Lightweight walking frame making it ideal for indoor use
- Folds flat for easy transportation and storage
- Height Adjustable (760mm - 940mm)

**Folding Frame - Aluminium**
- Provide support for users with limited mobility
- Height adjustable, aluminium folding frame for ease of transportation and storage
- Lightweight and ideal for indoor use

**Forearm Crutches**
- Cuff provides secure fitting to the forearm
- Adjustable between cuff, handle and ground
- Also available an ergonomic shaped handle

**Underarm Crutches**
- Patented clip-lock adjustable handle and push button foot pieces for fast, precise measuring and fitting

**Walking Sticks**
- A range of walking sticks available for all users
- Lightweight, Folding, Adjustable, Quadbase, Swan Neck

**Transport Ramp**
- Lightweight composite fibre core and aluminium frame support up to 400kg
- Anti-slip all weather surface, raised tapered side walls
- Folding design for easy transport and storage

**Multipurpose Ramp 870mm**
- Longer, wider variant of the Personal, designed for commercial and travel situations
- Folds up to allow for easy storing or transporting
- Comes with strap for storage on back of wheelchair
- Length: 870mm
- Width: 835mm

**Rubber Ferrules / Cane Tips**
- A range of colours and sizes to suit, from 12.5mm to 25mm

**Aspire Knee Walker**
- For lower leg & ankle injuries
- Compact & easy to fold
- Multi-height adjustable platform
- Adjustable handle bar height
- Dual locking brakes

**Aspire Meal Tray Walker**
- Sturdy & robust walking aid for use within the home

- Length: 870mm
- Width: 835mm

**Rubber Ferrules / Cane Tips**
- A range of colours and sizes to suit, from 12.5mm to 25mm
**THERAPY & EXERCISE**

**TENS Unit**
- Designed to assist with light to moderate pain relief
- Supplied complete with 9 Volt battery, leads and 1 pkt of electrodes
- Designed for home use
  - FPP316200

**Lupin Hot/Cold Packs**
- Micro professional range ideal for use in institutions
- Meets all the necessary health and safety requirements
- FPP292152 - Body Pillow 400x190mm
- FPP292153 - Square 200x200mm
- FPP292154 - Rectangle 330x130mm
- FPP292155 - Shoulder wrap
- FPP292156 - Hang glove

**Aspire Exy Pedals**
- Encourages the exercise of semi-recumbent people who are not highly mobile
- Lightweight and easy to move
- Digital model allows for resistance and time to be set
  - FPP292800 (Manual)
  - FPP292810 (Digital)

**Exercise Bike**
- Adjustable resistance levels
- Easy to operate computer with large LCD window
  - FPP290610

**Hand Grips**
- Designed to provide resistance to hands for general strengthening and conditioning
- Sold as a pair
  - FPP290440 - Medium
  - FPP290450 - Strong
  - FPP290460 - Extra Strong

**Stress Balls**
- Designed for temporary relief of stress or as a rehabilitation tool for finer motor skills
- Specifically exercises the hand, wrist & forearm
  - FPP312440 - 65mm

**Thera-Band Retail Pack**
- Thera-Band Resistance with Handles for convenient, ready-to-use clinical or home solutions.
- Available in 6 Theraband colours and resistances
  - FPP310800 - Light
  - FPP311000 - Heavy

**Fitness Ball**
- Excellent therapy for perceptual motor training activity, especially for children with abnormal reflex patterns
- Range of sizes available
  - FPP303000 - 45cm Diameter
  - FPP303300 - 55cm Diameter
  - FPP303500 - 65cm Diameter
  - FPP303700 - 75cm Diameter
  - FPP303800 - 85cm Diameter
  - FPP303900 - 100cm Diameter

**Sweat Bands**
- Designed to absorb sweat and keep the user cool and dry during exercise
  - FPP303100

**PVC Dipped Dumbbells**
- Conveniently packaged for the beginner or a user requiring increased levels of resistance
  - FPP290310 - 0.5kg Pink
  - FPP290320 - 1.0kg Purple
  - FPP290330 - 1.5kg Green
  - FPP290340 - 2.0kg Yellow
  - FPP290350 - 2.5kg Red
  - FPP290360 - 3.0kg Blue
  - FPP290370 - 3.5kg Grey
  - FPP290380 - 5.0kg Black

**Exercise Putty**
- Exercise Putty designed to strengthen and rehabilitate hand and finger muscles
- Less oily than other traditional putty, non-toxic and bleed proof
  - FPP298100 - Light
  - FPP298200 - Medium
  - FPP298300 - Medium Firm
  - FPP298400 - Medium Firm
  - FPP298500 - Firm

**Premium Rigid Strapping Tape**
- Provides maximum support and protection against injury during sport
- Assists in recovery from injury
- Extra strong adhesive with pinked edge
  - GMS337057 - 38mm

**Manual**
- Digital
  - FPF290440 - Medium
  - FPF290450 - Strong
  - FPF290460 - Extra Strong

**Exercise Putty**
- Encourages the exercise of semi-recumbent people who are not highly mobile

**Note:** See websites for detailed information and complete range.
Living with Arthritis can be uncomfortable and painful. You may experience stiffness, inflammation and damage to the cartilage in your joints resulting in weakness, instability, reduced range of movement and joint deformities.

There are over 100 forms of arthritis that can affect people of all ages.

Arthritis can heavily impact on daily function including the most basic of tasks such as preparing meals, walking around the home, driving, tying laces and buttoning up shirts.

Fortunately, there is a wide range of equipment available to assist with daily tasks to allow you to maintain an independent lifestyle whilst living with arthritis.

A stroke occurs when the blood supply to the brain is interrupted. This interruption can be caused by a burst of an artery or a blockage, which then fails to supply the brain with sufficient oxygen and nutrients, therefore causing brain cells to die.

It is important to seek immediate medical advice and engage in a post-stroke rehabilitation program. These programs are designed to promote recovery of partially damaged brain cells and retrain skills that were affected. Depending on the severity of the stroke, some brain cells may not be repaired and long term functional implications may be present.

With the use of innovative adaptive equipment, assistive devices and daily living aids, a stroke sufferer has an opportunity to maintain as much of their independence as possible to lead an empowered and healthy lifestyle.

## BARIATRIC

Obesity is an increasing issue in our population posing a demand for equipment in larger configurations. Aidacare, in conjunction with AusBIG, states that a bariatric client may have one or more of the following characteristics:
- Weigh more than 125kg
- BMI of over 35
- Seat width of over 50cm

Bariatric equipment is designed to assist in pressure management, heat management of the client and effective weight distribution on the seating surface.

Aidacare’s bariatric equipment range caters for all functional needs including mobility, community access, self-care, bedding, posture & seating and aids for daily living.

## MOBILITY & ACCESS

Access and mobility are issues that touch everyone’s life at one time or another.

Many people experience reduced mobility in various situations including young people with sporting injuries, older people with less agility or people with disability. It is therefore crucial to acknowledge that the entire community benefits from a more accessible environment.

This overview was put together to give you an overview of the mobility equipment that can help you overcome the obstacles you might face.

Product suggestions to suit your condition

**CARER’S SUPPORT**

Manual handling is any activity that requires the use of force exerted by a person to lift, carry, lower, push, pull, move or hold any item, including a person. It also includes work involving repetitive activities, sustained muscle exertion and fixed postures.

Injuries in health, aged care, rehabilitation and disability services due to the handling of people are a major risk. Poor manual handling practices can cause injuries to the body that affect the musculoskeletal and/or nervous systems. The most commonly injured part of the body is the back, followed by the shoulder, arm, hand and neck. But these injuries are preventable.

To understand how, we have put together this guide which helps you identify the equipment you need to eliminate the risks of injury.

---

**PRESSURE CARE**

Pressure injuries can develop in anyone with reduced mobility. They commonly occur when there is prolonged pressure on bony prominences such as the elbow, heel, shoulder, back of head, lower back and the buttock area. If left untreated, pressure injuries can lead to serious complications. Therefore, prevention is key to managing areas at risk of a pressure injury. Prevention tips include regular changes to position, good hygiene and skin care, and a healthy diet.

**PRODUCTS & APPLICATIONS**

**DEMENTIA**

Dementia can happen to anybody, but the risk increases with age. It affects thinking, behaviour and the ability to perform everyday tasks. Some early signs of dementia include progressive and frequent memory loss, confusion, apathy and withdrawal.

Safety within the home is an important factor to consider when caring for a person with dementia. The home environment should help them know where they are and find where they want to go. This can be done with large orientation signs and using colour contrast to highlight important items or areas in the home.

---

**THERAPY & EXERCISE**

After an injury, it is important to engage in a rehabilitation program designed by your Physiotherapist, Exercise Physiologist, Occupational Therapist or other relevant discipline. These programs will include a home based component which play a crucial role in the recovery process and can help you get back to participating in your favourite activities more quickly. Aidacare’s therapy and exercise range provides you with the equipment you need to manage and maintain your physical rehabilitation needs in the home. Discuss with your relevant health professional for the most appropriate items for your needs.
