## Aidacare, Your NDIS Assistive Technology Support Team

Aidacare is one of Australia's largest Healthcare Equipment and Service providers, offering practical solutions to clients who may be ageing-in-place, have an illness or living with a disability.

We work extensively with Healthcare Professionals and Care Providers in the Community, Home, Aged Care Facilities and Hospitals to identify and provide solutions to a range of challenges.

Our focus on product quality, services and ongoing support has made Aidacare & Aspire trusted brands throughout Australia, and that is why you will find us on many Government Healthcare Equipment Contracts and Private Healthcare Supply Agreements.

## Our Strengths

**Integrity:** Aidacare staff are trained to respond sensitively and helpfully to our clients' needs in the home and assisted-living environments. We are professional and conduct ourselves with integrity, so as to build long-term trusting and supportive partnerships.

**Total Quality:** Our internal training program for our staff at the "Aidacare University" ensures we provide the highest service and consistent equipment expertise. Our Quality Systems (ISO 9001) are supported by a rigorous Internal Audit Program.

### Service & Support:

We support what we sell. Our national Technical Service and Maintenance teams provide maintenance and asset management systems for Government Departments, Aged Care Facilities, Community Care providers and Hospitals.

### National Distribution with Local Service:

With **24** Aidacare locations and over **50** Distribution Partner locations around the country, Aidacare has the network to support our customers wherever they are.

**NDIS Focus:** Aidacare are the Assistive Technology equipment experts who strive to offer a supportive and knowledgeable service to NDIS Participants, Healthcare Professionals and Case Managers.

This booklet is intended to assist in assessing the Participant's needs for assistive devices (AT), clinical equipment and home modifications, so that they can reach their goals.

Please refer to the information on the following pages to assist with the application and selection process

*Please Note: The following forms are available in an editable pdf format on the Aidacare Website*

## SECTION 1 - Contact Details

**NDIS Participant Details** *Please complete ALL applicable fields*

Name \_\_\_\_\_ DOB \_\_\_\_\_

Address \_\_\_\_\_

NDIS Number \_\_\_\_\_ Phone Number \_\_\_\_\_ Email Address \_\_\_\_\_

Participant's NDIS Contact Name \_\_\_\_\_ Phone Number \_\_\_\_\_

**Clinician Contact Details** *Please complete ALL applicable fields*

Name \_\_\_\_\_ Phone Number \_\_\_\_\_

Occupation \_\_\_\_\_ Business Name \_\_\_\_\_ Email Address \_\_\_\_\_

**Plan Manager Details** if not Agency or Self-Managed

Name \_\_\_\_\_ Phone Number \_\_\_\_\_

Email Address \_\_\_\_\_

## SECTION 2 - Participant Goals & Aspirations

Refer to goals in the participant's plan. Goals and aspirations should consider along with the environmental and personal context of the participant (living arrangements, community supports; social and economic participation).

*Please rank the goals in order of priority – most important at the top of the list, least important towards the bottom.*

Priority	Goal / Aspiration	Potential Assistive Technology (Refer to NDIS Product Selection Guide)

## SECTION 3 - Evaluation / Assessment

### A. Background

Note the participant's social and environmental circumstances with regard to use of Assistive Technology (AT)

Participants Weight \_\_\_\_\_ kg      Participants Height \_\_\_\_\_ cm

Please list relevant medical information, including presenting condition: \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

Participant's Living Situation:      Lives Alone       Spouse       Other Family       Friend

Participant's Home Type:      House       Unit       Other  \_\_\_\_\_

Home Ownership Status:      Owner       Rents       Other  \_\_\_\_\_

Stairs to Access or in the Home:      Front Access       Rear Access       How Many Floor Levels \_\_\_\_\_

Other Considerations:      Narrow Doorway       Tight Corners       Other Restrictions? \_\_\_\_\_

### B. Function

Outline the participant's functional limitation/s related to their disability which indicates the need for Assistive Technology. Relevant assessments should be conducted where required.

Is assistance required to:	N	Y	If YES, AT that may be required	Refer to section in AT Selection Guide	Current AT & equipment in use
Mobilise?	<input type="checkbox"/>	<input type="checkbox"/>	Scooters	Scooters	
			Wheelchairs - Manual / Electric	Wheelchairs	
			Walkers & Frames	Mobility Aids	
Use stairs?	<input type="checkbox"/>	<input type="checkbox"/>	Rails	Home Mods	
			Stair Lift / Lift		
Get in / out of bed?	<input type="checkbox"/>	<input type="checkbox"/>	Electric Profiling Bed	Bedroom	
			Bedsticks / Poles / Support Rails

			Toilet Aids	Bathroom & Toilet	
Bathe / shower?	<input type="checkbox"/>	<input type="checkbox"/>	Shower Commode	Bathroom & Toilet	
			Bath / Shower Aids		

ACA25.34 V1 030419

## SECTION 4 - Product Selection Summary

Once the relevant assessments are completed, list the AT recommended in order to meet the participant's goals.

It is Good Practice to have equipment with electrical components and/or moving parts serviced at regular intervals to ensure safety, functionality and longevity. To avoid unforeseen and unbudgeted emergency breakdowns, Aidacare recommends including Preventative Maintenance and Repair costs in your participant plan. Please refer to schedules and pricing in Section 9 of this booklet.

	Product Name	Product Code	Comments/Mods	Pg No.	NDIS Code	Priority Number of Goal	Quote Ref No.	Product Cost	Preventative Maintenance Costs
1									
2									
3									
4

**Equipment Trials:** Certain products are available for in-home evaluation & short-term trial. Please refer to the terms and conditions in Section 6 of this booklet.

## SECTION 5 - Assistive Technology Complexity Levels

Do not need to provide the National Disability Insurance Agency (NDIA) with Assistive Technology Assessor assessments, reports and/or quotes before buying Basic (Level 1) or Standard (Level 2) Assistive Technology.

### Basic (Level 1) Assistive Technology

These are considered low-cost products and services you can purchase with your Assistive Technology funding that are readily identified, locally sourced and integrated into your life for effective, low-risk use e.g. mainstream products to be used for familiar activities in familiar environments. You do not need to provide an NDIA with a quote for these items – you can simply just purchase them using your NDIS plan.

AT Category	Example Assistive Technology items	
Daily living solutions	Everyday use products with specific features that address the participant's functional limitations due to their disability, these can include items such as: <ul style="list-style-type: none"> <li>small devices to assist with dressing and undressing, eating &amp; drinking</li> </ul>	
NOTE: Excludes weighted blankets, bed-sticks, poles, bedrails and bedrail covers as these are considered more complex (Level 3 or Level 4) Assistive Technology		
Mobility	Everyday use products with specific features that address the participant's mobility limitations due to their disability, these can include items such as: <ul style="list-style-type: none"> <li>replacement mobility stick/cane, replacement covers</li> <li>elbow crutches</li> <li>walking sticks and canes</li> </ul>	<ul style="list-style-type: none"> <li>quad stick</li> <li>tactile sticks or white canes</li> <li>rollator / 4WW frame</li> <li>repairs</li> </ul>
NOTE: Any vehicle modification or Assistive Technology for travel (e.g. specialised harnesses) are level 3 and 4 Assistive Technology.		
External continence	Everyday use products with specific features that address the participant's continence needs due to their disability, these can include items such as: <ul style="list-style-type: none"> <li>one off/short term supply of washable briefs, pads, bedding protectors</li> </ul>	<ul style="list-style-type: none"> <li>washable incontinence products for children over 5 years</li> <li>incontinence alarms</li> </ul>
Communication devices	Everyday use products with specific features that address the participant's communication limitations due to their disability, these can include items such as: <ul style="list-style-type: none"> <li>low tech communication boards</li> <li>low tech communication books</li> <li>low tech visual schedules</li> <li>picture Exchange Communication Symbols (PECS) books. Cost varies depending upon the number of symbols that are required</li> </ul>	<ul style="list-style-type: none"> <li>replacement only low-cost electronic communicator – e.g. BIGmack, LITTLEmack, Step by Step communicator, Step by Step communicator with levels, Talking buttons, Buddy buttons</li> <li>replacement talking brix (First request requires a clinical assessment and justification)</li> <li>replacement only for adaptive switches - Jelly Bean switch is only one example of switches. Switches can vary from Orby switch, through to leaf switch. Jelly Bean switches are probably the most commonly used switch low technology</li> <li>pragmatic Organisation Dynamic Display (PODD) books.</li> </ul>
Vision	<ul style="list-style-type: none"> <li>everyday use products with specific features that address the participant's visual limitations due to their disability, these can include items such as: replacement canes or cane tips throughout the year. (NOTE: This is only if the participant has already had a mobility assessment and it is a replacement).</li> <li>replacement magnifier e.g. hand-held magnifiers</li> <li>adaptive daily living equipment e.g. liquid level indicator, talking kitchen scales</li> <li>tactile dots</li> </ul>	
NOTE: The following items would generally not meet Reasonable and Necessary criteria and NDIS funding should not be used for purchasing these items: talking microwave, oven mitt (extra-long), chopping boards, measuring cups, talking food thermometer. Items such as a Victor Reader/Daisy Player should generally be trialled (rented) for a period to determine suitability when lower cost options are not available.		
Hearing	Everyday use products with specific features that address the participant's hearing limitations due to their disability, these can include items such as: <ul style="list-style-type: none"> <li>vibrating alarm clock</li> <li>doorbell and phone alerting system</li> <li>cochlear aqua accessories (water proof covers)</li> <li>hearing Henry headbands</li> <li>cochlear wireless TV streamer</li> <li>cochlear wireless mini microphone 2+ (additional to Office of Hearing Service)</li> </ul>	<ul style="list-style-type: none"> <li>cochlear wireless phone clip</li> <li>remote microphone i.e. Voice Link</li> <li>remote control</li> <li>telephone coupler</li> <li>Music Link ear hooks</li> <li>hearing aid batteries and maintenance</li> <li>streamer</li> <li>vibrating smoke alarm pack</li> <li>baby cry pager</li> <li>remote Microphone System - Transmitter and receiver</li> </ul>

## Standard (Level 2) Assistive Technology

*These are considered low-cost products and services you can purchase with your Assistive Technology funding that are readily identified, locally sourced and integrated into your life for effective, low-risk use e.g. mainstream products to be used for familiar activities in familiar environments. You do not need to provide an NDIA with a quote for these items – you can simply just purchase them using your NDIS plan.*

AT Category	Example Assistive Technology items	
Simple bathing and toileting devices	Everyday use products with specific features that address the participant's functional limitations due to their disability, these can include items such as: <ul style="list-style-type: none"> <li>hand-showers with diverter</li> <li>bath-board</li> <li>bath transfer bench - no back</li> <li>shower chair adjustable with arms and/or back</li> </ul>	<ul style="list-style-type: none"> <li>shower stool</li> <li>adjustable toilet seat raiser</li> <li>basic over toilet frames supports</li> <li>toilet rails fixed to toilet (throne)</li> <li>basic static bedside commode</li> </ul>
Basic household devices	Everyday use products with specific features that address the participant's mobility limitations due to their disability, these can include items such as: <ul style="list-style-type: none"> <li>kitchen trolley</li> <li>laundry and washing line adaptations</li> <li>kitchen stool</li> <li>assistive aids and devices for dishwashing, cleaning, household tasks, food and drink preparations</li> <li>over bed tables</li> </ul>	
Home adaptations (external or internal)	Everyday use products with specific features that address the participant's functional limitations due to their disability, these can include items such as: <ul style="list-style-type: none"> <li>grab rails</li> <li>supply and install specialised taps, door handles, key locks and coded key safe</li> <li>portable ramps for a single step ramp</li> <li>single platform step modifications - minor adaptations</li> <li>threshold ramps 35mm rise or less</li> <li>personal alarms</li> </ul>	
Seating	Everyday use products with specific features that address the participant's mobility limitations due to their disability, these can include items such as: <ul style="list-style-type: none"> <li>standard chair adjustable height</li> <li>bed or chair raises 40mm or 100mm height</li> </ul>	
Basic transfer equipment	Everyday use products with specific features that address the participant's mobility limitations due to their disability, these can include items such as: <ul style="list-style-type: none"> <li>replacement slide sheet and boards</li> <li>car transfer pad</li> <li>swivel disc</li> </ul>	<ul style="list-style-type: none"> <li>transfer belt</li> <li>Handybar car handle</li> <li>hoist sling replacements</li> <li>minor repair vehicle modification</li> </ul>
Vision	Everyday use products with specific features that address the participant's visual limitations due to their disability, these can include items such as: <ul style="list-style-type: none"> <li>some vision specific apps for a smart phone e.g. blind square, KNFB reader (but is likely to always require some training in use)</li> <li>penfriend 2 labeller (likely to always require some training in use)</li> <li>JAWS upgrade (likely to require some information in updates)</li> <li>daisy player – if required should have been trialled first as this would be to ensure a participant is going to get benefit from it and can use it. There may be lower cost alternatives (may require training in how to use)</li> <li>requires an electronic portable hand-held magnifier as like for like replacement</li> </ul>	
NOTE: Electronic portable hand-held magnifiers may not be the right solution for all low vision needs, and you should seek professional advice before buying one.		
Prosthetics and orthotics	Everyday use products with specific features that address the participant's functional limitations due to their disability, these can include items such as: <ul style="list-style-type: none"> <li>replacement stockings for a year</li> <li>replacement socks for a year</li> <li>replacement foot covers</li> <li>replacement knee sleeves for a year</li> <li>replacement straps/buckles/Velcro</li> <li>other low-cost consumables (e.g. lubricant) that may be required to extend the working life of the AT</li> <li>replacement silicone liner</li> </ul>	

## Specialised (Level 3) Assistive Technology

The AT may be similar to that supplied for Level 2, but there is greater complexity in participant need, AND/OR requires customisation, interconnection and/or integration with other AT or the person's home/work/ place of study, AND/OR risk of injury if incorrectly set-up/issued is high or not obvious to operator.

Considered for Participants where there is greater risk of falls, entrapment, asphyxiation, and/or impalement for more active participants due to aspects of their impairment(s)/situation, for example:

- altered muscle tone;
- altered visual field;
- impaired cognition;
- complexity of environment of use;
- demand on personal supports or manual handling considerations.

## Advisor Characteristics

Experienced professional support needed to identify, source and integrate components of assistive solutions into the participant's life for effective use. Assessment at this level and above will consider the extent of activity modification or learning required, or extent of environmental modifications, human support and/or specialist training required

AT Category	Example Assistive Technology items	
Communication devices	<ul style="list-style-type: none"> <li>• non-complex devices/software</li> <li>• refreshable electronic Braille display</li> <li>• multipage communication books</li> </ul>	
Specialised vision/hearing devices	<ul style="list-style-type: none"> <li>• desktop electronic magnification</li> <li>• telescopes</li> <li>• daisy player</li> </ul>	<ul style="list-style-type: none"> <li>• items for administering medication for people with vision impairment</li> <li>• hearing aids &amp; accessories</li> </ul>
Continence	<ul style="list-style-type: none"> <li>• the initial supply of all continence items (with the exception of Level 4)</li> <li>• review of indwelling continence items</li> </ul>	
Environmental control units	<ul style="list-style-type: none"> <li>• medium complexity environmental control units ECUs</li> </ul>	
Standard home modifications (simple or non-structural)  <sup>1</sup> Non-structural = alteration to non-load bearing walls; installation of fixtures which do not alter structural integrity of home	<ul style="list-style-type: none"> <li>• non-portable ramps including compliant and non-compliant AS1428.1–2009 ramps</li> <li>• adaptation of bathroom and kitchen fittings</li> <li>• shower screen removal</li> <li>• bidets – toilet attachment type</li> <li>• stair lifts</li> </ul>	<ul style="list-style-type: none"> <li>• repositioning of switches and power outlets</li> <li>• replacement of taps</li> <li>• application of slip resistant coatings</li> <li>• ambient assisted living appliances (combined solutions)</li> <li>• activity monitoring solutions</li> </ul>
Non-standard beds, mattresses & accessories	<ul style="list-style-type: none"> <li>• sleep support systems for non-complex postural/pressure needs</li> <li>• foot and body wedges</li> </ul>	<ul style="list-style-type: none"> <li>• pressure mattresses</li> <li>• pressure mattress overlays</li> <li>• bed sticks/poles</li> </ul>
Low to medium level pressure care management	<ul style="list-style-type: none"> <li>• low to medium level pressure cushions and mattress</li> </ul>	
Mobility	<ul style="list-style-type: none"> <li>• power/power-assist wheelchairs</li> <li>• specialised strollers</li> <li>• scooters</li> <li>• gait aids</li> </ul>	<ul style="list-style-type: none"> <li>• vehicle modifications (access)</li> <li>• specialised car seats, harnesses* and postural supports</li> <li>• positioning devices</li> <li>• assistance animal</li> <li>• mobility cane (first issue)</li> </ul>
Specialised transfer and movement equipment	<ul style="list-style-type: none"> <li>• mobile or ceiling hoists and slings</li> </ul>	
Bathing and toileting devices	<ul style="list-style-type: none"> <li>• Shower commodes – individually configured from standard components</li> <li>• bath lifts</li> </ul>	
Prosthetics Orthotics Footwear	<ul style="list-style-type: none"> <li>• non-complex</li> <li>• non-complex</li> <li>• first issue</li> </ul>	

## Complex (Level 4) Assistive Technology

The AT may:

- be custom made or 'off the shelf' but configured uniquely for the person
- require interconnection or integration with other AT or the persons home/work/ place of study
- carry significant risk (hospitalisation or death)

AT devices/systems designed to address multiple complex needs of a participant and those who are at a high risk of pressure ulcers, entrapment, or asphyxiation.

Particularly complex support needs due to:

- severe postural deformity
- very complex communication
- severely altered muscle tone
- severely impaired cognition
- challenging environment of use
- high positive behaviour support needs

Hearing: paediatric participants and adults with complex needs including poor speech discrimination, profound loss, auditory neuropathy.

## Advisor characteristics

Specialist and/or ongoing support (including specialised training) needed to identify, source and integrate components of assistive solutions into the participant's life for effective use.

AT Category	Example Assistive Technology items
Mobility	<ul style="list-style-type: none"> <li>• power wheelchairs with integrated controls</li> <li>• motor vehicle AT (operator)</li> <li>• highly configurable manual wheelchairs</li> <li>• electronic mobility AT for person who is blind</li> </ul>
Adaptive seating and positioning system for complex posture	<ul style="list-style-type: none"> <li>• within wheelchair</li> <li>• vehicle passenger seat/tie down</li> <li>• static seating</li> <li>• bed systems</li> </ul>
Complex Bathing and toileting devices	<ul style="list-style-type: none"> <li>• bathing devices including shower commodes</li> </ul>
Complex pressure care management	<ul style="list-style-type: none"> <li>• high-level pressure cushions and pressure care sleep systems</li> </ul>
Bed systems for complex need	<ul style="list-style-type: none"> <li>• full mattress replacements</li> <li>• bed rails &amp; bedrail covers</li> </ul>
Prosthetics complex/myoelectric	<ul style="list-style-type: none"> <li>• orthotics/footwear complex</li> <li>• high-risk</li> </ul>
Hearing	<ul style="list-style-type: none"> <li>• hearing aids and accessories (complex need)</li> <li>• cochlear implant speech processors</li> <li>• BAHA</li> </ul>
Specialised ICT access	<ul style="list-style-type: none"> <li>• specialised software</li> <li>• alternate access &amp; mounting systems etc.</li> </ul>
Complex home modifications	<ul style="list-style-type: none"> <li>• modifications that require structural changes to building and/or require council permits</li> </ul>
Communication devices (initial / complex)	<ul style="list-style-type: none"> <li>• electronic voice/voice prostheses</li> <li>• equipment for Deafblind individuals</li> </ul>
Environmental control units	<ul style="list-style-type: none"> <li>• Multifunction complex control ECUs</li> </ul>
Continence	<ul style="list-style-type: none"> <li>• initial supply/review of anal devices and intravaginal bladder supports</li> </ul>
Enteral nutrition	

## SECTION 6 - Product Selection

Composite item codes (as seen throughout) are included for when several items are required in a specific area to meet the participant's needs ie: Manual wheelchair with head rest and seat cushion can be submitted against *Wheelchair Manual-Composite 05\_417\_0105\_1\_2*

### Bathroom & Toilet

#### Shower

#### Aspire Shower Stools

## SECTION 7 - Product In-Home Evaluation & Trial

Aidacare will make certain products/equipment available for in-home evaluation & short-term trial to assess suitability for the environment and Participant. Where possible, a single assessment period will be arranged for viewing of product selection, as multiple assessment visits may not be funded by NDIS. Bathroom, hygiene and some personal care products/equipment are available for dry trials only. Technical based equipment (power wheelchairs and custom manual wheelchairs), splints, personal hygiene, continence and respiratory equipment are not available for loan.

Please contact your Healthcare Professional or Aidacare AT Consultant to arrange product viewing and trials. Full Terms & Conditions are also available from the Aidacare Consultant.

## SECTION 8 - Complex Rehab

Aidacare Complex Rehab consultants and engineers provide specialised advice, service and equipment based solutions for our clients. This highly specialised area of Complex Rehab is supported by our expert team of consultants with many years of practical experience and professional training including qualified Physiotherapists, Occupational Therapists, Rehab Engineers and Field Technicians.

The key assistive equipment focus of our Complex Rehab team includes:

- Scripted Manual Wheelchairs
- Scripted Power Wheelchairs
- Seating & Positioning Products
- Pressure Management Cushions
- Paediatric Rehabilitation Equipment

Our Complex Rehab philosophy is to assess and recommend the clinically appropriate product solution based on the individual client's needs. We offer a broad range, which enables our team to recommend the right option. Aidacare represents the leading industry brands and models sourced from the world's top tier international manufacturers in this field.

Please visit the Aidacare website to obtain additional information and assessment forms for completion prior to placing order

## SECTION 9 - Home Modifications

Aidacare is a highly experienced provider of home modification services, assisting people to continue to live safely and independently in their own home. These modifications may include introducing assistive technology products into the home environment or making structural changes to the home.

Modifications are usually based on a thorough assessment by an Occupational Therapist and can range from something as simple as installing grab-rails, hand-rails, lever taps and step-wedges, to more complex home modifications such as installing fixed wheelchair ramps and widening doorways.

At Aidacare, we are able to arrange expert installation of everything you may need to ensure that the home is safe, secure and mobility friendly. Our installers work closely with healthcare professionals and NDIS participant to achieve outstanding results.

**Please use Room Layout Grid at back of book if you wish to include your additional drawings.**

For additional information please refer to the Aidacare website or the NDIS Category Quick Reference Guide at the back of this booklet.

## SECTION 10 - Maintenance & Service Pricing Schedule

It is Good Practice to have equipment with electrical components and/or moving parts serviced at regular intervals to ensure safety, functionality and longevity.

To avoid unforeseen and unbudgeted emergency breakdowns, Aidacare **strongly** recommends including **Preventative Maintenance (PM) and Repair** costs in your participant plan.

	Equipment Category	NDIS Service Code	NDIS Category	NDIS Price Guide & Budget Recommendation
