Support
Relief

World’s leading high stretch, durable and breathable healthcare fabric

S.W.L 140kg

Space Saving Design - Single Motor
Infinite Position - Dual Motor
Adjustable Pressure Relief Seating
Customisable Seat Depth

www.aspirecare.com.au
1300 133 120
The Aspire Air Lift Chair’s unique design promotes skin immersion and envelopment. Pressure on the skin’s surface is re-distributed, reducing the risk of pressure injury associated with prolonged sitting.

Ideal for clinical and aged care environments, Genuine Dartex® Fabric Surface and modular pressure relief system maximise comfort while integrated postural contours support optimal positioning.

The Space Saver model allows for the chair to be placed close to a wall, ideal for smaller rooms.

The rise function and leverage grips promote increased user independence in sit-to-stand transfers whilst the recline function allows a relaxed position in times of user fatigue.

**AIR LIFT CHAIR**

**DEPTH ADJUSTABLE SEAT**
A 50mm adjustment offering for customised user comfort and positioning

**ACCESSIBLE STORAGE**
Large side pocket for convenient storage. The chair’s handset is conveniently fitted in the pocket, allowing users to reel in a dropped handset, discouraging leaning and possible falls.

**LEVERAGE GRIPS**
Together with the rise functionality, promote user independence in sit-to-stand transfers

**SPACE SAVER**

Space saving recline for close wall positioning

**MOBILITY READY**
A set of 4 swivel castors facilitate easy movement for cleaning and transportation. Provided separately, as not attached (NB. Castors increase seat height)

**PATIENT SURFACE - ADJUSTABLE PRESSURE**
Contoured air bladder in the seating surface can be easily inflated and adjusted with integrated hand pump – stowed and concealed within chair when not in use

**PADDDED ARMREST OVERLAYS**
Provide an extra soft and comfortable elbow & forearm resting surface

**BACK REST CHARACTERISTICS**
Multilayer foam and fibre pillow sections provide a soft, breathable and supportive surface ideal for extended periods of sitting

**REMOVABLE BACKREST**
Removable backrest and seat cushion for easy cleaning and maintenance

**2 YEAR WARRANTY**

**DVA Contracted**
**Air Lift Chair is registered in the ARTG, AUST R ARTG 282986**

**Tested to International Standards**

**UPRIGHT POSITION**

**FORWARD LIFT**

**FULL RECLINE**
The Aspire Air Lift Chair’s unique design promotes skin immersion and envelopment. Pressure on the skin’s surface is re-distributed, reducing the risk of pressure injury associated with prolonged sitting. Ideal for clinical and aged care environments, Genuine Dartex® Fabric Surface and modular pressure relief system maximise comfort while integrated postural contours support optimal positioning.

The Dual Action model allows for the chair to be operated in an infinite amount of positions, with the backrest and legrest operating independently which ensures maximum user comfort.

The rise function and leverage grips promote increased user independence in sit-to-stand transfers whilst the recline function allows a relaxed position in times of user fatigue.

Dual control of leg and recline for infinite positioning

**Accessories:**
- **Depth Adjustable Seat:** A 50mm adjustment offering for customised user comfort and positioning.
- **Accessible Storage:** Large side pocket for convenient storage. The chair’s handset is conveniently fitted in the pocket, allowing users to reel in a dropped handset, discouraging leaning and possible falls.
- **Leverage Grips:** Together with the rise functionality, promote user independence in sit-to-stand transfers.

**Warranty:**
- 2 Year Warranty

**Key Features:**
- **Back Rest Characteristics:** Multilayer foam and fibre pillow sections provide a soft, breathable and supportive surface ideal for extended periods of sitting.
- **Patient Surface - Adjustable Pressure:** Contoured air bladder in the seating surface can be easily inflated and adjusted with integrated hand pump - stowed and concealed within chair when not in use.
- **Leverage Grips:** Together with the rise functionality, promote user independence in sit-to-stand transfers.
- **Accessible Storage:** Large side pocket for convenient storage. The chair’s handset is conveniently fitted in the pocket, allowing users to reel in a dropped handset, discouraging leaning and possible falls.
- **Depth Adjustable Seat:** A 50mm adjustment offering for customised user comfort and positioning.
- **Leverage Grips:** Together with the rise functionality, promote user independence in sit-to-stand transfers.

**Additional Features:**
- **Dual Action:** Allows for the chair to be operated in an infinite amount of positions, with the backrest and legrest operating independently.
- **Infinite Positions - Dual Motor:**
  - Full Recline
  - Backrest Recline
  - Legrest Recline
  - Upright Position
  - Forward Lift

**Removable Backrest:**
Removable backrest and seat cushion for easy cleaning and maintenance.

**DVA Contracted:**

**Tested to International Standards:**
CLINICAL CONSIDERATIONS

OPTIMAL POSITIONING AND POSTURE
• From its rise function to its thoughtfully positioned lever grips, the design of the Air Lift Chair promotes user independence in sit-to-stand transfers
• For the user, this serves to preserve muscle strength and coordination
• For the carer, this means less manual handling effort is required

ANTHROPOMETRIC CONSIDERATIONS
• Two sizes with inbuilt adjustability to ensure correct fit and postural support

PRACTICALLY DESIGNED
• Transportation castors included as standard make manoeuvring the chair hassle-free to facilitate cleaning in rooms
• The cover is easily removed to allow easy laundering and ensure compliance with infection control standards
• The backrest and seat cushion are also easily removed to allow convenient cleaning and maintenance

OEDEMA MANAGEMENT
• The generous leg raise angle assists with the management of lower limb oedema

PATIENT SURFACE

OPTIMAL BARRIER VAPOUR CONTACT EXTENSION
• Reliable

FOR YOUR COVER
• Prevent fluid ingress and improve infection rates
• Breathable. Maintains a healthy microclimate
• With potential for skin contact, safety is key
• Prevent hammocking through sufficient stretch
• Durable fabric that is compatible with most cleaning solutions to ensure stringent infection control standards are met and ensure long term performance

GENUINE DARTEX® PU FABRIC
Well respected in the healthcare industry, Dartex® PU fabric is the perfect patient surface solution for treatment and management of pressure injuries though it’s 5 key characteristics (Figure 1.5).

Optimal Barrier
Vapour
Contact
Extension
Reliable

PATIENT & CARER BENEFITS
• Designed specifically for pressure care needs
• Removable anti-bacterial/anti-microbial cover for infection control management
• Waterproof yet breathable for improved skin microclimate

* User Height Guide is a reference tool and may not apply to all users
* Chair measurements may vary +/- 20mm due to upholstery tolerances
* Seat depth is adjustable by 50mm, Petite Chairs are set at 460mm standard and Large Chairs are set at 510mm however can be adjusted as needed to suit user

IMMERSION & ENVELOPMENT
Aspire Air Lift Chairs have been designed with Dartex® PU Fabric to maximise skin Immersion (Figure 1.3) and Envelopment (Figure 1.4). This is fundamental for a support surface to effectively redistribute pressure, improving blood flow which promotes healing.
