

Privacy notice

Your personal information is protected by law, including the *Privacy Act 1988*. Your personal information may be collected by the Department of Veterans' Affairs (DVA) for the delivery of government programs for war veterans, members of the Australian Defence Force, members of the Australian Federal Police and their dependants. [Read more: How DVA manages personal information](#)

RAP and NDIS – Aids and appliances can be provided by both DVA, through the Rehabilitation Appliances Program or by the NDIS, through an individual care plan, as long as the same aid/appliance is not provided by both NDIS and DVA.

For any queries regarding the completion of this form please contact the DVA's Rehabilitation Appliances Program Section on 1300 550 457 (metro) or 1800 550 457 (country) and select Option 1.

Patient/Entitled Person - Delivery Details

Surname	<input type="text"/>		
Given names	<input type="text"/>		
Address	<input type="text"/>	Postcode	<input type="text"/>
Phone number	(<input type="text"/>) <input type="text"/>	Date of birth	<input type="text"/>
DVA file number	<input type="text"/>		
Card type	<input type="checkbox"/> Gold <input type="checkbox"/> White → For White Card holders it is recommended that the prescriber contacts DVA to check eligibility under the patient's Accepted Disability(ies). Please call 1300 550 457 (metro) or 1800 550 457 (country).		
Delivery address (if different to above)	<input type="text"/>	Postcode	<input type="text"/>
Prior Approval number (when required and issued by DVA)	<input type="text"/>	Does the patient live in a Commonwealth funded Residential Aged Care Facility (RACF)?	<input type="checkbox"/> No <input type="checkbox"/> Yes → If Yes, ongoing oxygen treatment will be provided by the RACF under the <i>Aged Care Act 1997</i> and not through DVA.

Specialist Physician Details (for Home Medical Oxygen Therapy Applications)

In accordance with DVA Guidelines for Prescribers, where a respiratory physician, cardiologist, oncologist or other DVA approved medical practitioner is not available for personal endorsement, a verbal endorsement is acceptable provided that the name, address and other details are provided.

<i>Prescriber's Stamp (if applicable)</i>	Speciality	<input type="text"/>
	Name	<input type="text"/>
	Address (Including Postcode)	<input type="text"/>
	Provider number	<input type="text"/>
	Phone number	(<input type="text"/>) <input type="text"/>
	Fax number	(<input type="text"/>) <input type="text"/>
	Signature	<input type="text"/>

Local Medical Officer Details

This section should be completed when possible.

Indications for Oxygen Therapy

Chronic Hypoxia

Arterial Blood Gases at rest on room air (while on optimised treatment during a stable phase of the illness).

Date

PaO₂ mm Hg pH PaCO₂ mm Hg

Isolated Nocturnal Hypoxaemia

Nocturnal oxygen saturation (for isolated nocturnal hypoxaemia only). %

Exertional Hypoxaemia

Patients are exercised (step or timed walk) until they reach oxygen desaturation of 90%. Exercise is then repeated with oxygen with a goal of exceeding number of steps or distance walked and keeping saturation above 90%. Measurements include SaO₂, distance or steps walked and duration of exercise.

Date

	Room Air Only	Using Supp O ₂
O ₂ flow (L/min)		<input type="text"/>
Rest (SaO ₂)	<input type="text"/>	<input type="text"/>
End exercise (SaO ₂)	<input type="text"/>	<input type="text"/>
Distance (m) / Steps completed	<input type="text"/>	<input type="text"/>
Exercise duration (Mins)	<input type="text"/>	<input type="text"/>

Acute Asthma

Does the patient suffer from sudden life threatening asthma despite appropriate maintenance therapy?

Yes No

Cardiac Disease

Does the patient suffer from end stage cardiac disease for which no further interventions are feasible?

Yes No

Palliative

Does the patient suffer from lung cancer and have an estimated life expectancy of less than six months?

Yes No

If a patient's condition falls outside of DVA Guidelines for home oxygen therapy, please briefly outline any exceptional circumstances.

Requested Supply System

- Concentrator
- Back up cylinder (for blackout prone areas)
- E or D size (690L or nearest equivalent)

NOTE: The following portable cylinders will normally only be provided if oxygen is required for less than 4 hours per day or if the patient has the ability to mobilise. Cylinder sizes are provided as a guide and where these sizes are not available should reflect their nearest equivalent.

- Portable oxygen → 160L 250L 480L
- Oxygen conserving device AND/OR Flow meter/Regulator
- Carry bag AND/OR Trolley

Oxygen Prescription

Flow Rate

At rest l/min

Exercise l/min

Sleep l/min

Hours per day Oxygen is required

Flow rate during Asthma attack l/min → Mask OR Prongs

Please state any further instructions

Respiratory Home Therapy Appliances

Provider Details

- Respiratory Clinic Specialist LMO RN
- Physio
