**ROHO® Cushion Range Overview**

**PRESSURE CARE**

- **Very High Risk:** Management and recovery from pressure injuries
- **High Risk:** Management and recovery from pressure injuries
- **Medium Risk:** Prevention and pressure management therapeutic
- **Low Risk:** Everyday comfort and pressure injury prevention

**Other ROHO Products**

- **Shower Commode Cushion**
  - Dimensions: 37.5 x 37.5cm
  - SWL: Unlimited*
  - Warranty: 24 months
  - *(if positioned properly on chair/seat)*

- **ROHO Contour Base**
  - Dimensions: 20 x 10 through 15 x 15cm
  - Warranty: 12 months
  - Provides a solid foundation for sling-seat wheelchairs
  - Fits under the cushion

- **ROHO Mattress Systems**
  - **ROHO Mattress Overlay**
  - **ROHO Prodigy System**
  - **ROHO Soflex System**
  - Refer: pages 14 & 15
ROHO® AIR vs. FOAM?

“The key advantage of Air Cushions in lowering peak soft tissue stresses is related to the substantially greater immersion of the buttocks that is facilitated, which creates a much larger contact area for load transfer.”

The results were clear. Compared with foam cushions, Air-Cell-Based Cushions provide:

- 57% greater immersion
- 10,000 times lower peak stress components for muscle, fat and skin tissue!
- Greater protection from bone-shape adaptation, muscle atrophy and spasms
- Longer safe-sitting times for SCI patients

ROHO® DRY Floatation® Technology

How ROHO® DRY Floatation® Technology Creates a Healing Environment

Soft, flexible interconnected air cells in ROHO DRY Floatation products are adjustable to fit to the individual’s seated or reclining shape. As the individual’s body shape and condition changes, the air cells can be adjusted to facilitate blood flow.

- **Six Degrees of Freedom**
  ROHO DRY FLOATATION products are constructed of individual cells that move independently, allowing each cell to twist, turn, bend, move up and down, and adapt precisely to the contours of the individual.

- **Constant Restoring Forces**
  When an individual is immersed in a ROHO DRY FLOATATION product, the forces and pressures pushing back on each cell are equal at all contact points. As the body is immersed, greater contact area is achieved for dispersion of pressure. Thus, the pressure on any one area is minimised.

- **Low Surface Tension**
  The unique cellular design allows for immersion into the product without deforming the tissue, minimising the chance of skin breakdown.

- **Low Friction and Shear**
  As a result of the three previous principles, DRY FLOATATION technology provides a low friction and low shear environment.

- **Low Friction and Shear**
  As a result of the three previous principles, DRY FLOATATION technology provides a low friction and low shear environment.

Love That Valve (LTV) Cushion

- Designed for short-term needs of users with high comfort needs but at low-level risk of skin breakdown
- Inter-connected air cells provide shock absorption and pressure reduction
- Lightweight: At 0.9kg the Mini Max cushion adds minimal weight to the entire mobility solution
- Great for travel and sports

ADDITIONAL PRODUCT VARIATIONS

- Lateral support cushions which attach directly to wheelchair lateral supports
- Custom-molded seating inserts, which fit inside custom molded seats to offer the individual increased tissue protection and reduced shock, impact, friction and shear
- Scooter cushion is designed to fit, or be adapted to standard 3-wheel scooters
- Lightweight design makes it easy to fold and carry
- Excellent cushion for use in your car
- Easily accessible valve allows you to adjust the air level to one that works best for you
- UltraLeather and Charcoal Gray Fabric

ADDITIONAL PRODUCT VARIATIONS

- Love That Valve (LTV) Cushion
  - Adjustable interconnected air-filled cells redistribute your body weight, padded cover adds an extra level of comfort
  - Lightweight design makes it easy to fold and carry
  - Great as second cushion for use in your car
  - Easily accessible valve allows you to adjust the air level to one that works best for you
  - Padded cover available in Black UltraLeather, Cabernet UltraLeather and Charcoal Gray Fabric

- **ROHO® Cushions**
  All models include
  - 2 way stretch cover
  - Hand Pump & Repair Kit
  - Operating Instructions
  - 24 Month Warranty

- **ROHO® Mini Max**
  - Designed for short-term needs of users with high comfort needs but at low-level risk of skin breakdown
  - Inter-connected air cells provide shock absorption and pressure reduction
  - Lightweight: At 0.9kg the Mini Max cushion adds minimal weight to the entire mobility solution
  - Great for travel and sports

- **ROHO® Finite Element Study**
  The study utilised a ROHO QUADTRO SELECT HIGH PROFILE® cushion to develop a computer model to predict the impact on internal soft tissue loads compared to a foam cushion alternative in patients with Spinal Cord Injury (SCI).

- The study determined the mechanical stresses in muscle, fat, and skin tissues under the ischial tuberosities during sitting. Tissue stress analyses were compared to a reference Spinal Cord Injury anatomy incorporating patho/physiologic changes associated with Spinal Cord Injury, including bone shape adaptation, muscle atrophy, and spasms.

- Using a set of Finite Element model variants, the study determined the mechanical stresses in muscle, fat, and skin tissues under the ischial tuberosities during sitting. Tissue stress analyses were compared to a reference Spinal Cord Injury anatomy incorporating patho/physiologic changes associated with Spinal Cord Injury, including bone shape adaptation, muscle atrophy, and spasms.
ROHO® Cushions

**ROHO® Air Lite**

- Designed for clients with tactile sensation who are at low risk of developing skin breakdown
- Contoured foam base with an internal sealed air cell provides comfort and support for basic positioning and pressure management needs

All models include
- 2 way stretch cover
- Hand Pump & Repair Kit
- Operating Instructions
- 12 Month Warranty
- Max. User Weight: 113kg

All models include
- 2 way stretch cover
- Hand Pump & Repair Kit
- Operating Instructions
- 12 Month Warranty

- Note: This range can fit chairs from 14” x 14” to 20” x 20”. Please contact Aidacare for enquiries relating to sizes outside of the displayed range. Sizes listed are seat dimensions. The actual cushion is 1.5” longer to allow for the cushion to sit between the back canes.

**ROHO® Harmony**

- Stability: The Harmony cushion is built on an anatomically-shaped foam base that enhances stability for the user
- Lightweight: At 0.7kg the Harmony cushion adds minimal weight to the entire mobility solution
- Appropriate for clients with moderate to low risk of skin breakdown who require a lightweight solution, that provides stability

All models include
- 2 way stretch cover
- Hand Pump & Repair Kit
- Operating Instructions
- 12 Month Warranty
- Max. User Weight: 113kg

**ROHO® Mosaic**

- Designed to provide a comfortable, functional and stable sitting environment for patients who are at risk of skin breakdown
- The Mosaic is also a Dry Floatation cushion but is made from softer plastic than the classic ROHO Dry Floatation cushions. It is therefore lighter (0.5kg) but less rugged
- Interconnected air cells disperse pressure and promote stability as the pelvis sinks into them
- The Mosaic is excellent as a lounge-chair cushion or even as a shower chair cushion

All models include
- 2 way stretch cover
- Hand Pump & Repair Kit
- Operating Instructions
- 12 Month Warranty

**ROHO® Nexus Spirit**

- Posture: The contoured foam base provides increased stability for transfers and also provides excellent pelvic positioning for improved posture
- Pressure: The ROHO Dry Floatation insert protects the Coccyx and Ischia whilst the soft foam aids protection of the gluteal crease area
- Stability: The Nexus Spirit combines the stability of a contoured foam base with a ROHO Dry Floatation cushion for therapeutic care
- Appropriate for clients with high-medium risk of pressure injury and need for positioning and transfer support

All models include
- 2 way stretch cover
- Hand Pump & Repair Kit
- Operating Instructions
- 24 Month Warranty
- Max. User Weight: Unlimited

ROHO® Hybrid Elite

- Two trusted brands, one effective solution. The Hybrid Elite combines the skin protection and shape matching ability of ROHO Dry Floatation with a contoured foam base designed for ROHO by JAY
- The design allows for improved pelvic alignment and stability while maintaining optimal immersion and dispersion of pressure away from the pelvic area
- The stability provided by the JAY foam base also assists with achieving safer transfers
- The ROHO Dry Floatation system and 2-way stretch cover help reduce friction and shear whilst maximising blood flow
- Appropriate for clients with moderate to high risk of skin breakdown who require positioning support
- Smart Check ready! Single valve cushions are supplied standard with sensor ready cushions for use of the Smart Check pressure sensor

All models include
- 2-way stretch cover
- Hand Pump & Repair Kit
- Max. User Weight: 227kg
- Operating Instructions
- 24 Month Warranty

Note: This range can fit chairs from 14" x 14" to 20" x 20". Please contact Aidacare for enquiries relating to sizes outside of the displayed range. Sizes listed are seat dimensions. The actual cushion is 1.5" longer to allow for the cushion to sit between the back canes.

ROHO® Enhancer

- A unique combination of high (4"), mid (3") and low (2") profile cells. This cushion centres the user and positions the pelvis back in the wheelchair, providing greater lateral stability through channelling of the legs.
- Appropriate for clients with high risk of pressure injury and need for greater positioning support
- Soft neoprene construction is flame retardant and durable

All models include
- 2 way stretch cover
- Hand Pump & Repair Kit
- Operating Instructions
- 24 Month Warranty
- Max. User Weight: Unlimited

Note: This range can fit chairs from 11.5" x 11.5" to 20.25" x 20.25". Please contact Aidacare for enquiries relating to sizes outside of the displayed range. Sizes listed are seat dimensions.

Dear Valued Customer,

Thank you for choosing Aidacare. We are excited to introduce our new range of cushions: the ROHO® Hybrid Elite and ROHO® Enhancer. These cushions are designed to provide superior comfort and support for individuals with varying needs.

The ROHO® Hybrid Elite is a unique combination of two trusted brands—ROHO Dry Floatation and JAY foam. This design provides improved pelvic alignment and stability while maintaining optimal immersion and dispersion of pressure away from the pelvic area. With single or dual valve options, this cushion is ideal for clients with moderate to high risk of skin breakdown who require positioning support.

The ROHO® Enhancer, on the other hand, offers a unique combination of high (4"), mid (3"), and low (2") profile cells. This cushion is designed to centre the user and position the pelvis back in the wheelchair, providing greater lateral stability through channelling of the legs. It is particularly suitable for clients with high risk of pressure injury and need for greater positioning support.

Both cushions are equipped with features such as 2-way stretch covers, hand pumps, repair kits, operating instructions, and 24-month warranties. The Max. User Weight for the Hybrid Elite is 227kg, while the Enhancer can accommodate unlimited weight.

We hope you find these cushions to be a valuable addition to your healthcare toolkit. For more details or to purchase, please contact us at 1300 133 120 or visit our website at www.aidacare.com.au.

Sincerely,
Aidacare Team
**ROHO® Cushions**

**ROHO® Contour Select**

- High profile cells at key bony prominence points promote pressure distribution
- Four-finned cells, developed over many years for optimal conformity to body shapes
- ISOFLO MEMORY CONTROL for easy adjustment and positioning

**Contoured form for increased lateral stability**

ROHO cells are treated to ensure a smooth surface, reducing friction and shear as well as bacteria retention.

- **A unique combination of high (4”), mid (3”) and low (2”) profile cells. This cushion centres the user and positions the pelvis back in the wheelchair, providing greater lateral stability though channeling of the legs.**
- **ISOFLO Memory Control looks air into compartments to help maintain better postural integrity in addition to pressure reduction.**
- **Interconnected cells help distribute pressure and reduce shear risk promoting pressure management.**
- **Appropriate for clients with high risk of ischemic ulcers and need for greater positioning support.**
- **Soft neoprene construction is flame retardant and durable.**

**All models include**

- 2 way stretch cover
- Hand Pump & Repair Kit
- Operating Instructions
- 36 Month Warranty
- Max. User Weight: Unlimited

**Note:** This range can fit chairs from 13" x 13" to 22" x 22". Please contact Aidacare for enquiries relating to sizes outside of the displayed range. Sizes listed are seat dimensions.

**ROHO® Dual Compartment**

- Low Profile (LP): 2" (5cm) High Cells
- Higher pressure dispersion
- Greater stability

**ROHO® Cushions**

- Four-finned cells, developed over many years for optimal conformity to body shapes
- ROHO cells are treated to ensure a smooth surface, reducing friction and shear as well as bacteria retention

The ROHO Dual Compartment therapeutic cushion provides an adjustable, low deformation, counter pressure environment that not only helps to prevent, but assists in the healing of pressure injury. It can position the user from side to side to adjust for a pelvic obliquity or from front to back to address sacral sitting.

All models include:
- 2 way stretch cover
- Hand Pump & Repair Kit
- Operating Instructions
- 24 Month Warranty
- Max. User Weight: Unlimited

**Low Profile Dual Valve With Cover**

Two inflation valves which independently adjust two separate compartments of the cushion to the needs of the user.

**ROHO® Cushions**

- **ROHO® Quadro Select**

- Low Profile (LP): 2" (5cm) High Cells
- Greater Stability

- Individual cell compartments move to adapt and reduce skin shear

- ROHO cells are treated to ensure a smooth surface, reducing friction and shear as well as bacteria retention

The SELECT Series of cushions offer versatility with four quadrants controlled by the ISOFLO MEMORY CONTROL.

**ISOFLO - Closed**

When closed, the ISOFLO MEMORY CONTROL locks the cushion to the desired seat position. Color-coded control helps visually aid in the operation.

**ISOFLO - Open**

When open, the cushion is inflated through one air valve and the individual is adjusted for the lowest bony prominence and positioned for their specific seating needs.

- ROHO Dry Floatation promotes circulation, and pressure relief whilst flexible neoprene cells reduce shear and friction
- Quadro Select cushions employ ISOFLO Memory Control which locks air into compartments to help maintain better postural integrity in addition to pressure reduction
- Quick-and-easy air compartment adjustment maximises function and utility

**ROHO® Cushion Covers**

- **ROHO® Standard Cushion Cover**
  - Two-way stretch fabric
  - Spacer fabric sides
  - Non-skid bottom
  - Warranty: 6 months

- **ROHO® Heavy Duty Cushion Cover**
  - Two-way stretch fabric
  - Fluid resistant & durable
  - Non-skid bottom
  - Antimicrobial, antibacterial & antifungal
  - Available for: ROHO® Single Compartment; ROHO® Dual Compartment; ROHO® Enhancer; ROHO® Mosaic
  - Warranty: 6 months

- **ROHO® Waterproof Cushion Cover**
  - Waterproof cover
  - Two-way stretch fabric
  - Easy to clean & Antimicrobial
  - Moisture Vapor Permeable
  - Fits most standard size ROHO® Dry Floatation cushions
  - Warranty: 12 months

- **ROHO® Four Way Stretch Cushion Cover**
  - Four-way stretch fabric
  - Non-skid bottom with velcro
  - Reinforced side panels
  - Available to fit all neoprene & Mosaic cushion sides

---

**ROHO® Mattress Sections**

- Dry floatation mattress system allows user to lie or sit comfortably for long periods
- Interconnected and flexible air cells provide protection and relief for user at risk of skin breakdown or already with early stage pressure injury
- Adjustable air pressure to suit the user
- Flexibility provides effective friction and shear relief
- Drainage holes allow fluids to escape
- Levelling Padsave foam insert sections that interconnect with ROHO Mattress Sections by clipping others

**ROHO® PRODIGY® Overlay System**

The ROHO® PRODIGY® Mattress Overlay System is a lightweight, portable, non-powered, air-filled, adjustable, zoned overlay with an easy-to-use design appropriate for all care settings. It's designed for individuals who are at risk for breakdown and/or have a Stage 1 or Stage 2 pressure injury.

Flexible, interconnected air cells can be adjusted to match the individual’s body contour. Each of the three sections (36” x 91.5cm x 27.5” x 70cm per zone) can be adjusted separately to address specific, changing needs.

- Promotes a comfortable environment to assist with pain management and pressure management
- Accommodates other positioning devices beneath the overlay
- Segment for use in positions other than 180°
- Hydrostatic distribution of load across the entire contact area
- Does not use electricity (no noise or heat from a pump, no issues transporting patient’s bed)
- Easy clean with machine washable cover
- Construction: flame-resistant polyvinyl, DEHP-free
- Includes: PRODIGY Mattress Overlay sections (3 sections snap together for a complete system), registration card, hand inflation pump, repair kit, overlay straps and operating instructions

---

**ROHO® SOFFLEX® 2 Mattress Overlay System**

The ROHO® SOFFLEX® 2 Mattress Overlay is a lightweight, cost effective solution for different care settings while providing superior skin/soft tissue protection.

Its non-powered, air-filled, adjustable, zoned, reactive, full support surface is intended to conform to an individual’s shape, providing skin/soft tissue and deep tissue injury protection and an environment to facilitate wound healing.

Flexible, interconnected air cells can be adjusted to match the individual’s body contours, providing individualized therapy and critical skin protection. The SOFFLEX 2 has three sections that easily snap together to form a complete mattress overlay and can be adjusted per section to address the specific needs of the individual’s body shape and size.

Based on clinical, scientific or engineering evidence, SOFFLEX 2 may be suitable for individuals who may:

- Currently have or are at risk of developing skin/soft tissue breakdown and/or any stage pressure injury (including deep tissue injury)
- Have a history of skin/soft tissue breakdown and/or any stage pressure injury (including deep tissue injury), skin grafts, or myocutaneous flap surgery
- Require a mattress overlay that provides an individualised fit
- Have skin grafts or recent myocutaneous flap surgery
- Need comfort
- Need pain management
- Construction: Polyurethane
- Includes: SOFFLEX2 Cell Pad (3 sections), operating instructions, registration card, hand inflation pump, repair kit, straps, ROHO® Reusable Mattress Overlay Enclosure Cover
